

## Canada At War

A Review of Developments on the Home Front

To meet the threat of a serious "wood-fuel famine" which threatens to come to a head next winter, the Munitions Department has announced that **A SUBSIDY OF \$1 A CORD** will be paid to dealers on all commercial fuel-wood contracted for and cut on or before June 30, 1943, and held to dealers' account on that date. The department also announced these additional measures to counter the shortage: 1. The Coal Controller has been authorized to arrange in his discretion for payment of such portion of the **TRANSPORTATION COSTS** as he considers proper in respect of fuel-wood, particularly in cases where dealers, to procure supplies, find it necessary to contract for fuel-wood at locations outside the area from which they normally derive their supplies. To obtain any such reimbursement dealers must **OBTAIN A PERMIT** from the Coal Controller before contracting for such supplies. 2. The Coal Controller **WILL PURCHASE** from dealers, at dealers' cost, all commercial grades of fuel-wood on which a subsidy of \$1 per cord has been paid and which are still in dealers' hands as at May 31, 1944. 3. Assistance will be given in providing priorities for necessary equipment.

**SALES OF SECURITIES** by Canada to other countries in 1942 totalled \$167,000,000, the Dominion Bureau of Statistics reported recently, while purchases totalled \$61,500,000. This represented a larger **NET INFLOW** of capital to Canada in international trade in securities than in any of the nine previous years for which statistics are available, the bureau said. Excess of sales over purchases was \$105,500,000. In 1941 sales of securities totalled \$108,300,000 and purchases \$75,300,000. Transactions with **THE UNITED STATES** constituted more than 96 per cent of the total volume. Sales of securities to that country amounted to \$165,100,000 and purchases were \$56,000,000. **TRADING IN BONDS** represented the major part of the transactions. Of the total net sales of \$109,100,000 to the United States, net sales of Canadian bonds accounted for \$96,000,000. **NET PURCHASES** of securities by Canada from the United Kingdom amounted to \$4,200,000, sales amounting to \$100,000 and purchases \$4,300,000. Canadian securities represented most of this balance, net sales of Canadian bonds being \$2,500,000 and Canadian stocks \$1,500,000.

While all provinces in Canada **EXCEEDED QUOTAS** in the February drive of the food industry's "March to Berlin" sale of War Savings Stamps, British Columbia-Yukon led the procession with **207 PER CENT** of original quota of \$70,700. The area total stands at \$146,500 and further returns are expected. Canada as a whole exceeded the original quota of one million dollars with reported sales of \$1,545,571 or **155 PER CENT**, according to J. W. Horsey, of Toronto, national chairman of the drive. Sales in B.C.-Yukon division are: Vancouver, \$83,750; Victoria, \$19,068; Nanaimo, \$12,897; Kamloops, \$7,762; Penticton, \$6,041; Prince Rupert, \$3,101; Prince George, \$3,240; Vernon, \$2,574; **KELOWNA**, \$2,180; Trail, \$2,566; Nelson, \$2,852; New Westminster, \$1,948; Cranbrook, \$1,058; Quesnel, \$974.

**A MILLION DOLLAR** installation of a block signal system between Chapeau and Schreiber, Ontario, will be started by the Canadian Pacific Railway this spring. D. C. Coleman, president of the railroad has stated. Planned to **EXPEDITE TRAFFIC** in this section of the Algoma division, the new control system will be the most modern of its kind. E. S. McCracken, North Bay division superintendent, indicated that the installation would be started in the early spring. It will take a large number of men to install and it is expected it will be completed within the year. **ALL ROUTING** through that section is controlled now by human direction and the new system will make all controls automatic between certain stations.

Customs, excise and income tax collections during the **FIRST ELEVEN MONTHS** of the current fiscal year—up to February 28—amounted to \$1,904,528,816, a gain of \$734,296,357 over the \$1,170,232,459 collected in the same period of 1941-42, Revenue Minister Gibson announced last week. Income tax collections **MORE THAN DOUBLED**, totalling \$1,243,038,737 against \$538,017,002, a net increase of \$705,021,735, and customs-excise revenue totalled \$661,490,079 compared with \$632,215,457, a net increase of \$29,274,622. **ALL INCOME TAX DISTRICTS** showed increases. Montreal district held first place with a revenue for the eleven months of \$372,537,272, up \$215,827,558, while Toronto in second place collected \$334,590,857, an increase of \$192,224,875. Income tax collections from other districts (with increase in brackets) included: Vancouver, \$103,006,579 (\$58,663,868); Yukon, \$607,534 (\$253,071). Customs, excise and income tax collections for the month of February amounted to \$154,976,425, against \$97,169,702 collected in February, 1942, a net increase of \$57,806,723.

The Prices' Board announced recently that **TRANSFER OF JURISDICTION** over certain goods from the Controller of Supplies to the Board under authority of an Order-in-Council passed in January has necessitated 25 controllers' orders being rewritten as administrators' orders. **FURTHER RESTRICTIONS** on production of articles containing metals are contained in some sections of the new orders, but in the main, the Board said, they carry through the provisions of regulations issued by the Controller of Supplies. Stoves, vacuum cleaners, washing machines, radios and parts, refrigerators, film, certain metal products, household electrical appliances and electric ironers are among the products affected. **THE NEW ORDER** prohibits the production of radios and phonographs for civilian use, but exceptions permitted in the original order have been carried forward, and permission for maintenance has been added.

The House of Commons has approved, without division, a motion to set up a House committee to study a plan of **SOCIAL INSURANCE**. Approval followed debate participated in by more than a score of members and concluded by Prime Minister Mackenzie King, who said that, if an amendment to the British North America Act were held necessary to make the scheme effective, it could be obtained quickly from the British Parliament.

Premier Hart announced last week in the Legislature that Ottawa has now given permission to private industry to start a **STEEL CONCERN** in B.C. The premier said he had had a letter from Munitions Minister Howe to that effect.

## NO NEED FOR ALARM ABOUT FUEL

Mayor G. A. McKay Asks People to Be Reasonable in Fuel Ordering and to Accept a Voluntary Fuel Rationing Program if Necessary—Will Not Go Cold

### FUEL FOR ALL

But Supplies May Be Limited to Sufficient to See Customer Through Temporary Shortage During Cold Spell—City Fully Conversant With Situation

"While the present fuel situation in Kelowna is not all that might be desired, there is no reason for the public to become alarmed," Mayor G. A. McKay stated on Wednesday to the Courier. "The present cold spell has played havoc with the small reserve of sawdust and wood, but there is no danger of any person suffering from lack of fuel."

"However, it may be necessary to adopt a sort of voluntary rationing program," His Worship stated, "and this may result in a customer only obtaining a portion of the order for sawdust or wood that he places with his dealer. In other words, it may become necessary for the sawdust and wood to be spread over the community rather than used."

Turn to Page 7, Story 5

## LOCAL WOMEN ARE GIVEN HIGH PRAISE

Rationing Supervisor Says Work of Local Group is Outstanding

"The women of Kelowna have done a marvellous job during the distribution of the ration books effort," C. H. Bell, Regional Supervisor of Rationing, Vancouver, told The Courier last week.

"The women were well organized and functioned perfectly," Mr. Bell stated, "and their effort is a credit to this city. They have rendered signal service to the local rationing office, which services the entire Interior of British Columbia. More than one hundred and fifty thousand ration books were handled from this office and we could not seek for any smoother distribution. The Kelowna women deserve much credit."

Thirty-two women from this city worked under the direction of Mrs. T. F. McWilliams, and, in addition to the distribution of the books, assisted the local rationing office in handling the cards from the people of the whole Interior of the province.

Mr. Bell stated to The Courier that the local women's volunteer organization was one of three which are being reported to Ottawa as doing an outstanding job. The other two are Vancouver organizations.

"The Rationing Board is indebted to these women," Mr. Bell stated, "and the people of Kelowna should be proud of them."

Turn to Page 7, Story 5

## GIRLS RELEASE MEN FOR DUTIES ON HIGH SEAS

Hoisting a torpedo like this aboard a ship is no mean task, but two Wrens do it skillfully. Delicate mechanics of the weapons calls for fast handling and the girls treat their "charges" with precision care. As torpedo mechanics, they wear special badges on their boiler suits.

## Fats and Bones Salvage Campaign Hits Snag Here As Butchers Uninformed

Local Butchers Say They Know Nothing About Campaign or Details of Handling Salvaged Fats and Bones Brought to Them by Housewives—Ottawa, On Other Hand, States That Butchers Have Been Contacted and That Plan is Working Effectively in Other Parts of Dominion—Some Contact Needed Immediately to Remove Bottleneck in Salvage Effort

**WITH** Kelowna housewives busily saving fats and bones in response to the direct appeal being made by the Department of National War Services at Ottawa, a bottleneck has developed, and, unless cleared away, the vital fats and bones salvage campaign appears destined to die stillborn. The bottleneck made its appearance when housewives endeavored to follow instructions by turning their fats and bones over to their butchers.

Local butchers confess a complete ignorance of the whole campaign. There has been no contact made with them by any official of the salvage department and they have had no advice as to how they should handle the fats and bones they are to receive. They know nothing either of the suggestion that they should pay housewives four cents per pound for dripping in tin containers.

Some local butchers do admit having seen some months ago a single circular on the subject, but that has been the extent of their information.

A survey of the situation by The Courier reveals the following facts: 1. Local butchers are uninformed about the campaign. They are not familiar with the details and have never been contacted about it by any one in authority.

2. Butchers express their willingness to co-operate, if a reasonable scheme is presented to them. 3. The butchers are concerned about what they will do with the fats and green bones during the hot weather. Most of them complain that they have no adequate storage facilities and they argue that it would be impossible to keep this salvage around their premises for any length of time.

4. That, as far as can be ascertained, the campaign is functioning in Kamloops, Vernon and Penticton no more successfully than it is in Kelowna. This despite the fact that in other towns in Canada it is apparently functioning well. 5. A representative of the Salvage Department made a tour of the Interior towns to see that the campaign is properly organized. One suggestion is that one of the travellers of the packing firms be assigned to this task.

W. Staples, of Burns & Co., who is this year's chairman of the butchers' section of the Retail Merchants' Bureau of the Kelowna Board of Trade, told The Courier on Wednesday that it was his intention to contact the other local butchers within the next few days to discuss the matter with them. He pointed out there are several difficulties in Turn to Page 12, Story 3

## RATION NEWS

See Page 11 for important information.

## CITY EMPLOYEES GET INCREASE IN SALARIES

Permanent Civic Servants Granted Flat Addition of Sixty Cents a Week

After three weeks of debate in committee, the Kelowna City Council has approved an increase in salaries of permanent city employees by sixty cents a week.

In February a petition was presented by civic employees asking that a cost of living bonus be granted or wages and salaries increased to cover increased living costs.

A proposal that a flat percentage increase be granted was considered by the Council, but it was felt that this would be unfair in that it would vary with the amount of wages and salaries paid.

The matter was complicated further by the fact that some City workmen had already been granted an hourly wage addition.

Civic employees do not come under the wage ceiling and municipal corporations are not bound to pay a cost of living bonus, but the Council agreed that some adjustment was proper, owing to a substantial rise in living costs.

Last Monday night the matter was concluded by the passing of a resolution covering the 60 cents a week raise in pay for permanent employees. This 60 cents is in line with the basic cost of living bonus set by Ottawa.

In regard to non-permanent employees, the chairmen of departments, by motion, are given the authority to make such adjustments as seem equitable.

The advance in wages and salaries will result in an addition to the payroll of approximately \$1,500.

## RECREATION GROUNDS AGAIN UNDER G. TUTT

George Tutt was again given authority by the City Council to supervise use of the recreation grounds in the City Park, when the Council met on Monday night in its usual semi-monthly session.

Appreciation of the work done in this connection by Mr. Tutt in previous years was voiced by the Mayor and aldermen.

## Quota Is Passed But District Is Far From Red Cross Objective

Quota of \$9,000 is Well Passed When Subscriptions to Red Cross Campaign of More Than \$11,500 Were Reported on Wednesday—Amount Still Nearly \$5,000 Short of Desired Objective of \$16,000 Which District Must Reach If It Is To Exceed Last Year's Assistance to Great Humanitarian Society—Campaign Slow Gathering Momentum—Many People Not Yet Canvassed—Chairman Appeals to Canvassers

### Canvass Ends This Week

**KELOWNA** this week went well over its quota in the current campaign for funds to supply the Red Cross for the next year, but it was still far short of the \$16,000 local objective which is necessary if the local assistance to this great and worthy organization is to exceed that which was given from this district last year. On Wednesday, E. W. Barton, campaign secretary, reported that the current total of the drive was \$11,550, considerably past the \$9,000 mark set by the provincial headquarters, but still nearly \$5,000 short of the locally-assumed objective of \$16,000. Campaign officials express confidence that the \$16,000 figure will be reached, despite the fact that the campaign this year is moving more slowly than it did a year ago.

## NEW LABOR MOVE MAY BE VALUABLE

Ontario Farm Labor Scheme Will Probably Be Tried in B.C. This Year

It is probable that British Columbia this year will see the establishment of a "farm army" based upon the plan which was in operation in Ontario last year and which is being expanded in that province this year to include more than one hundred thousand workers. This information, reached The Courier on Wednesday and in response to an enquiry Dr. K. C. MacDonald, Minister of Agriculture, informed The Courier that a conference of Dominion-Provincial officials, recommending the establishment of a farm labor program designed to meet the special needs of British Columbia, suggested the program include certain features of the Ontario plan.

Mr. Bull points out that news of units going over the top and far surpassing their original quotas is of great assistance to the campaign throughout the province, and particularly to those districts that are having hard going. He asks also that the captains make their daily reports, as it is impossible to check on the progress of the campaign without these reports. There is a belief that the Kelowna figure is higher than that quoted above, but a number of captains have failed to make their reports and therefore their activities cannot be included in the present total.

## WATER STREET BRIDGE MOVED

Footbridge Changed to Make Way for Vehicular Bridge

This week the department of public works has moved the footbridge over Mill Creek at Water Street. The bridge which crossed the creek following the street southwards, now runs at a right angle to the street and crosses the creek in a westward direction.

The bridge has been changed as one of the preparatory steps to the erection of a permanent traffic bridge at this point. Water Street is one of the main traffic arteries stemming from the business district southwards. At the present time it is crossed by a large number of pedestrians and it is obvious that once a vehicular bridge is put through it will be used by many motor cars.

The bridge will serve a large residential area and a right angle crossing will shorten the route from the business area to the residential district on the Lakeshore south of Park Avenue.

Some of the local districts having exceeded the subscriptions of last year. Some of these districts have made substantial increases.

Some of the local areas have completed their canvass but, on the other hand, one or two only got underway this week.

This, coupled with the difficulty of estimating the true position of the city, leaves the whole canvass in a difficult position. There are only three more days of the campaign remaining, and yet it is impossible to make any satisfactory estimate of the results of the campaign in this district.

## Small Income People Must Make Greater Effort If Victory Loan Is To Be Success, Speaker Says

Provincial General Sales Chairman Tells Local Committee That Increase in Sales Must Come From Low Incomes and Farmers—Ninety Per Cent of People Earn Less Than \$2,500 But Control Seventy-Five Per Cent of National Income

"If the objective is to be reached, the lower income brackets must make a much greater effort this year in purchasing Victory Bonds," M. F. Wardhaugh, provincial chairman of the general sales section of the British Columbia War Finance Committee, told the Kelowna War Finance Committee on Thursday evening. He was emphasizing that special names and the middle income brackets could not be expected to purchase more than they had in previous years, while, on the other hand, the "take" from the small income bracket had barely been scratched.

Mr. Wardhaugh stated that it was depleted. This group will be able to purchase Victory Bonds this year only out of current income. This will mean there can be no gain from this source and, probably some loss in sales.

In the payroll savings plan in the Second Victory Loan the "take" was \$61 millions. This rose in the Third Loan to \$93 millions.

**More From Small Incomes** An analysis of the income figures shows that, if all the people in Canada who receive \$3,000 or more in salary each year were to agree to live on \$1,000 and use the remaining \$2,000 of their salary for taxes and Victory Loan purchases, this group would only be able to purchase \$2,000 more Victory Bonds each year to the extent of 400 millions.

Nine out of ten people in Canada receive less than \$2,500 a year; but Turn to Page 7, Story 4

## Government Lake Level Gauge At Entrance To City Park

Printed Graph Will Record Week's Rise or Fall—Historical Data To Be Cut On Walls—Suggestions Welcomed

With the co-operation of the City of Kelowna, the Federal Government has authorized the installation of a lake level gauge which will be placed in a cement and granite cairn at the entrance to the City Park, at the foot of Bernard Avenue.

The cost of all equipment is being borne by the Government, and the City is making the installation and erecting the building, where the gauge will record the rise and fall of the lake on a printed graph.

The total cost is estimated at \$600 and installation should be completed in two weeks' time. A deep pit is being dug which will extend below lake level, and this will be cement lined and surmounted by the small structure, approximately four feet square, which will house the recording apparatus.

In addition to the automatic recording of the lake level during the year, the structure will bear the geodetic survey mark giving the exact height of Kelowna above sea level.

It has been suggested that the top portion of the walls be of granite, and that certain historical data in regard to Kelowna, its founding and subsequent history, be engraved on the walls. The City will welcome suggestions from organizations and individuals with reference to the material to be used in the inscriptions. It is stated, and any relevant information about Kelowna's early history will be most welcome.

The lake level recordings will be enclosed behind a glass front set in the cement and will cover readings for the period of one week. The recording device will operate for one year without re-fill, and should be of great interest to residents of Kelowna and district.

Similar installations have been made on Arrow and Kootenay Lakes, and another gauge will be set up on the lake shore at Penticton, near the water gate.

The exact height of the gauge house has not been decided, and it will depend upon the design best suited to the display of the historical and other data about Kelowna.

At present City workmen are busy constructing the pit which will house the foundation of the structure and installing the necessary piping which extends into the lake for some distance. The equipment used will minimize any fluctuation from weather conditions and will agree with the recording device installed at Penticton.

Workmen are using the earth that is excavated to extend and level the turning ground at the foot of Bernard Avenue. At a later date further improvements along the lake shore at this point will be made, but this project is not slated until after the war.

**One Remedy**  
The vacuum cleaner man, having finished his demonstration, turned with a beaming smile and showed the housewife the amount of debris which had been extracted. "Oh, my goodness, isn't that awful?" she said. "I'll have to get rid of that carpet and put down linoleum."

## Citizens Are Urged To Grow Vegetables And Small Fruits This Year

Government Is Promoting Planting of Victory Gardens in All Vacant Lots—British People Have Produced Huge Supplies in Back Lots—Free Government Advice to Amateur Gardeners—Use Good Seed and Plan Crops

THROUGHOUT North America gardeners are being urged this year to plant more, larger, better and longer-yielding plots. In the United States a Victory Garden Committee has been appointed by the Department of Agriculture which is conducting widespread propaganda to urge that, in view that a quarter of the total food production of the country will be required for the armed forces and the people of the Allied countries overseas, all town and suburban dwellers who have sufficient open sunny space and fertile ground should grow as large a supply as possible of the vegetables needed by the family.

Vegetable growing during this year will be a matter of making the best use with what is available. War has brought rationing to the gardeners as well as to others; but, despite shortages of fertilizer, of spray materials, of new tools, and even of seeds, those who are willing to give attention to the plan with care can accomplish good results. The gardeners of Great Britain have proved that. Confronted with greater shortages and under threat of danger unknown here, they have produced, with the help of good weather, beyond all expectations.

What has happened in Britain can happen here. Every gardener, aware of the need, can turn out by making the best of what he has, more and better produce than in the days of often pointless, peace-time gardening. Such accomplishments will be made, doubtless, with lower expenditures, but at great outlay in planning and muscular exertion. As for planning, there are now available free of charge many publications prepared by government experts.

It is expected that many vacant lots will be utilized for gardening this year, and steps are being taken to make land available. In such cases larger plants can be planted than in most of the home gardens, and no doubt many will make a serious business of growing enough, particularly of the green and leafy vegetables, tomatoes, at other vegetables for eating fresh and for preserving, to meet the family's entire yearly needs. Money will be saved, but more, the family will have a constant and adequate supply of these very essential health-protecting foods at or near home and in the cellar. And the earnest Victory gardeners will make a contribution in meeting the wartime needs. They will lessen the strain on an overburdened transportation system, they will save cans, they will release commercial stocks of fresh and processed vegetables for our armed forces and our Allies.

**Small Fruits**  
Many home owners have ground space enough to plant small fruits, grapes and tree fruits and to insure for themselves necessary supplies of these taste-delighting and most healthful foods in the near future. One great advantage of many of these small fruit crops, particularly grapes, is that they need occupy little ground space. Grapes may be grown on arbors or trellises, vertical or horizontal, and provide shade, currants and cane fruits may be used as hedges or boundary line plantings, thus also serving a double purpose.

The Department of Agriculture is urging every farmer, where climate and water supplies permit, to produce the family's entire yearly supply of vegetables, both fresh and processed, and also to grow as much fruit for home use as he can. The department standard of good food habits stipulates that at least four servings of fruits and vegetables should be eaten daily. Therefore, vegetable and fruit gardens must not only produce enough of these for eating fresh in season, but also enough so that the equivalent of 100 to 125 quarts of fruits and vegetables will be canned or otherwise processed for out-of-season use. The farm gardens should be so planned and operated that they will produce from early spring until hard freezing winter.

The nearer the amateur gardener can come to meeting these goals, the better it will be for him and for the nation. But to accomplish this he must plan early and wisely and garden well. There will be a tremendous demand for garden seeds and supplies this year. Gardeners cannot afford to waste seed, fertilizer, insecticides, time and labor on poor ground or by neglectful gardening.

By means of successive sowings and plantings, by choosing the kinds of vegetables that may be grown easily and yield most results, and growing kinds also that mature late, such as Chinese cabbage, endive, kale, collards and late cabbage, as well as rutabagas, carrots and other root crops, the Victory garden can be made to yield as it should. Furthermore, the green and leafy vegetables, the yellow vegetables (carrots, rutabagas, yellow squash) and tomatoes, given half a chance, are all easily grown. These vegetables also insure that the daily intake of vitamins A and C and the minerals, lime and iron, will be more adequate.

**Saving the Produce**  
Not one bit of garden or orchard produce should be allowed to go to waste. After each kind matures, if the supply is too large for immediate use, it should be canned, dried, brined or otherwise processed, or stored in outdoor pits or in a cool, dry cellar. If there are occasional local market surpluses which may be obtained in fresh condition, these may be canned for home use to supplement the supply from the home lot. Or such surpluses, or the surpluses from local home gardens, may be canned through local co-operative effort, under proper supervision, and used for school lunch or local welfare purposes.

Bill: "Hear yer brother's workin' now, Sam."  
Sam: "Yus."  
Bill: "How long he bin workin'?"  
Sam: "Three months."  
Bill: "What's he doin'?"  
Sam: "Six."

## KELOWNA CLUB ASKS USE OF MOST PERMITS

Members Agree to File Liquor Permits for Club Use During Most of Year

A special meeting was held on Wednesday evening of last week by members of the Kelowna Club to discuss the current liquor regulations and their effect in regard to club operations.

The Club Committee put forward a plan based on present rationing, which was submitted by President Don Fillmore. The scheme entails the turning in of liquor permits by the majority of members, which will guarantee that the club will be able to buy its monthly quotas so long as supplies are available in the local store.

The great majority of members present agreed to allow their permits to remain with the club during most months in the year. These members will be entitled to larger purchases than members who keep their permits for personal use. The meeting unanimously approved of the plan as outlined by Mr. Fillmore. He stressed, however, that it was untried and that experience and possible changes in the liquor regulations might necessitate alterations in the future. The club would have to meet changing conditions as they arose.

## DAVE CHAPMAN APPOINTED SHELL AGENT

Well Known Trucking Man Will Fill Position of Agent Vacated by Ivor Newman

Dave Chapman has been appointed Shell Oil representative for Kelowna. He takes over the position vacated by Ivor Newman, who resigned recently after acting as agent for a number of years. The work of Shell Oil agent will be handled by Mr. Chapman in addition to his cartage and trucking business, which he operates from his premises at the corner of Lawrence Avenue and Water Street.

J. Reid, Shell representative in Kamloops and the Interior, spent the past week in Kelowna concluding arrangements with Mr. Chapman in regard to Mr. Newman's replacement. He expressed the satisfaction of the Shell corporation in securing Mr. Chapman's services, and stated that the trucking executive's experience in automotive transportation would be of great assistance.

Copenhagen means "merchants' haven." It has been the capital of Denmark since 1443.

## BULMANS SHUT DOWN PLANT

Shortage of Vegetables Forces Dehydration Industry to Close

Bulmans Limited, of Vernon, the largest plant of its kind in all Canada, closed down temporarily at the end of last week.

T. R. Bulman stated that there were no more vegetables available for processing, and that the severe cold this winter had frozen supplies of potatoes and carrots which, otherwise, would have been processed by the plant.

When the asparagus season opens in April, the plant will again swing into action, and the dehydration system will begin operation some time in June as soon as the early cabbage is on the market.

A man boasts he has had the same wife and the same pipe for thirty years. Each is possible, but not both. —Kitchener Record.

## ITCH STOPPED in a Jiffy - or Money Back

VANCOUVER - CANADA

CANADIAN NATIONAL CAR  
FERRY RESCUES FLYERS

Car ferries are not apt to be regarded as romantic craft, although their everyday usefulness is valuable in moving wartime freight and passengers whose business is important, but the "Prince Edward Island" of the Canadian National Railways had a real adventure when the R.A.F. Training School at Charlotte-

town, P.E.I., advised that four missing airmen had been discovered on floating ice in the Strait of Northumberland and asked assistance of the ferry. The craft, under command of Captain Albert G. Jay, promptly set out from "Fortinville" and an hour later picked up the four men from the ice, three miles off Cape Germaine. They were brought to port and sent to hospital at Moncton. The "Prince Edward

Island" is an icebreaker and stoutly equipped for the winter crossing between the mainland and Borden, on Prince Edward Island.

Great Britain is now producing 60 per cent, by weight, of its own food, compared with only 39 per cent before the war. Further efforts are being made to increase home-produced food by an additional 15 or 20 per cent.

More About

2 FOOD  
WILL BE

From Page 1, Column 4

time have to come from the outside. "As the tide turns to victory, and section after section, country after country, is liberated from bondage, we have to be ready with the final weapon of victory—food! The one hope of restoring real order will be in a practical plan of reconstruction that parallels the march of the victorious armies of the United Nations. Old guideposts have vanished; political and economic landmarks have been erased. We cannot if we would, rebuild on old foundations, or use old symbols to exact cooperation.

"But the first step in such a program is to feed Europe. The United Nations will not be able to speak of democracy to empty stomachs. They will not be able to preach lasting peace to men watching their children die of famine and the diseases of malnutrition.

"That is why it is imperative for us to have on hand on the day of victory a stock of food with which to feed Europe. It means food piled high on a scale such as we have never known. It means an efficient organization equipped and ready to distribute it. Before we can even approach the job of reconstruction, we must have essential materials with which to do it.

"I will not try to deal with how this can be carried out. Maybe there will have to be an International Commission, backed by a huge international financial pool. I am just trying to show you the need—to explain to you why I think that food is the final weapon of victory. I have tried to impress you with the colossal task which lies before the Americas, if we are not to have yet another 'war to end wars' and another peace like the last one, which truly 'passeth all understanding.'

## Canada's Failure

"Let us examine for a minute the Canadian national effort to supply the need I have outlined. Let us ask ourselves what preparations and progress are being made, how much has been done in the building up of these necessary food stocks.

"You all know the answer. We have not even been keeping abreast of our present requirements. The

R.C.A.F. UNIT  
WILL TEST  
ALL RECRUITS

Mobile Recruiting Unit Here  
March 27 for Two-Day Visit  
Will Test Both Men and Women

The R.C.A.F. mobile recruiting unit will again visit Kelowna on Saturday, March 27, and Monday, March 29, next.

The unit will be equipped to administer most of the tests and medical examinations prior to enlistment, and applications and tests will be available for both men and women.

Air crew enlistments are now posted to a Manning Pool immediately after attestation, and the practice of waiting for call on leave without pay has been discontinued. Applicants must present their birth certificate and proof of education received.

Prospective recruits will be interviewed and tested at the Army, Royal Street, on Saturday and Monday, March 27 and 29.

present outlook is that, unless we cut our exports and fall short of our obligations to Britain and our obligations to feed our troops overseas, hunger and cold is going to stalk the people of the large cities in this bountiful country.

"I am quite sure this statement will not be borne out by the Dominion Bureau of Statistics, but unfortunately this department does not seem to know what it is all about. For instance, I have just finished reading 'The Current Review of Agriculture' in Canada, February, 1943. It contains some statements which must be very consoling to those whose business it is to see that there are adequate food supplies, but they are none the less extraordinary. This report states that apple stocks in cold and common storage on February 1st were 3,600,000 bushels more than at a similar date in 1942. Apples are now considered a staple food product, and we know that there were not that many bushels of apples altogether in Canada at that time. Then again, in the same report, it says that onion stocks were 55 per cent greater than for the same period last year. If this is true, there are a lot of people who would like to know where they are. Then they say that potato holdings are 40 per cent greater than at a corresponding date last year—this at a time when the people of Vancouver are buying certified seed potatoes shipped in from Nova Scotia and, instead of putting them in their Victory gardens, are putting them in the mulligan.

"I only mention these facts in case you should read in the paper tomorrow that what I am telling you is not true.

"Actually, our food supplies are presently going down and down. One does not have to be very bright to figure out that, unless some adequate provision is made for agricultural production, we are heading for trouble.

## Huge Loss

"It is just like two and two making four. Diminishing food stocks started with the War Exchange Control Act of 1940, by which we prohibited the entry into Canada of large quantities of food. Something in the neighborhood of a hundred and twenty million pounds of fresh and processed fruits and vegetables were missing from our grocers' shelves in the past year, due to this legislation. And then our defeats in the Southern Pacific again robbed us of large quantities of food—thirty million pounds of pineapples from Singapore, for instance. Then there was the freezing of various commodities by the United States Government for use in the lend-lease program and for their armies. You have also to reckon the loss of food through the discontinuance of coastwise steamers plying from the south. Included in this is the matter of possibly a million and a half pounds.

"The loss of essential foods from the U.S.A., due to freezing in that country for government purposes, coupled with a tremendous increase in their domestic demand, is not known at present, but it must represent a staggering amount. Altogether, it is not unreasonable to believe that in 1942 our importation of essential foodstuffs dropped a billion pounds.

"There are no figures available on the amount of increase in our food export to the Allied nations, but we know from our own observations that it has gone up considerably. So we have imports down and exports up.

## Eating More

"The natural assumption would be that, to even this off, we eat less ourselves, but, as we all know, this is not the case. On an average, men in the armed forces today are being fed more and better than they ever were before in their lives. Nobody has any complaint about that. Men and women working long hours in factories and workshops and shipyards burn up more energy and need more food than they did prior to accelerated working conditions. Also, more shame to us, many men, women and children in Canada are, for the first time in years, getting sufficient food. This total increased consumption has been estimated to be from seven to ten per cent.

## Production

"So we have lowered imports, raised exports and increased domestic consumption. Well, there is only one other way out of that, and that is increased production. Here again there are some actual figures available. We know that there has been a considerable increase in some commodities, especially in the case of bacon for overseas; but on the whole, it is doubtful if there was very much increase in 1942. I don't see how there could be with a labor situation which allows food crops, ready to be harvested, to be frozen in the ground, as they were last year.

"All this adds up to the fact that, unless we do something about it quickly—and by that I mean in the growing season that lies ahead of us—unless there is some more intelligent handling of this situation than there has been in the past, we are just going to run short of food for our immediate use, let alone build up the tremendous reserves that I referred to earlier as being an essential part of our war effort.

"If the people of Canada could do

a little crystal gazing and realize what is going to happen in about the month of May this year in regard to our food supply, I do not think we would have very much trouble getting action, but unfortunately by that time it will be too late. Seeding time will be past before anything can be done about it.

"The tragedy seems to be that those in authority believe that everything is under control, because on page 3 of the last 'Current Review of Agriculture,' issued in Canada, it has this to say: 'On the threshold of another season, which will get under way in the earlier areas within a few weeks, Canadian farmers are being given the fullest information possible to guide them in planning 1943 productive operations.'

## Farmers Puzzled

"Now there are some cases, such as hogs and butter, where the producer is assured of a fair return and a market for all he can produce, but there are not many farmers who have been given instructions what to grow, and with these instructions an assurance that they will receive fair returns, or any definite assurance that they will be provided with sufficient labor to plant, tend and harvest the crops.

"The Government must know that the mere stating by some one in Ottawa that the need is for this and that is not sufficient guidance to justify a farmer planting such commodities.

"They should know that they did not get production in hogs and butter until they made some price guarantee. We have all seen many leaflets stating what the 1943 objectives are. We have all read that Canadian farmers are required to increase egg production 29 per cent, milk 6 per cent, potatoes 11 per cent, sugar beets 42 per cent, and many other figures.

"The current issue of the Economic Analyst asked us to increase the production of fruit and vegetables to protect both domestic and export requirements. It asked for an increased production of processed tomatoes, particularly in the form of juice. It says an increase in the acreage in green and root vegetable crops is necessary in order to ensure supplies at least equal to production in the favorable season of 1942.

"Another Government spurge we received recently had this to say: 'In this war a tremendous responsibility rests with the farmer. Like all other Canadians, he is faced with extra burdens and difficulties, but his responsibilities have been simply and clearly stated: (1) produce as much as possible; (2) reduce farm debts; (3) save and lend to Canada.'

"It goes on to say: 'Farm labor is scarce. Farm machinery is rationed. In the face of these tremendous handicaps Canadian farmers must increase production. Farmers must be fed, shipyard workers and the women employed in munition factories, etc., etc., etc. Farmers know what is required of them in 1943 production. This program has been outlined by the Dominion Department of Agriculture.'

"You see—it's all fixed up. 'A farmer is supposed to be able to do about everything, and I suppose that is why Ottawa thinks he is also a magician.'

## Who is Responsible?

"Who on earth can be writing this stuff? Who on earth can think this is possible under present conditions? A child should know that you cannot get increased production in this manner. I was talking to the head of our largest processing concern only yesterday, and he

## Blood Donors Must Be Backed by Money Donors

MACHINE-GUNNED, bleeding to death, another Canadian or British fighting man is reached by the Medical Corps. Will he live? Yes, his chances are good, if he receives a blood transfusion in time.

Thanks to the Red Cross Volunteer Blood Donor Service, military doctors on the field and in hospitals, ashore and afloat, are equipped to administer the blood serum that cheats death.

Last year Canadian Red Cross collected 200,000 blood donations for use in bombed areas and on fighting fronts. This year the demand is far greater—world wide. Reserves of blood must be neither too little nor too late. The present Canadian chain of Red Cross

Blood Donor clinics MUST be enlarged and new ones MUST be equipped. Although doctors and nurses give their time, donors give their blood free, large sums are involved in maintaining clinics.

For funds to carry on, the Red Cross looks to you. The stark life-or-death nature of this appeal commands the wholehearted response of every Canadian. Think of our wounded, our prisoners of war in barbed wire Nazi camps.

Think of battle-ravaged Russia, starving China, and dying Greece and other peoples of the United Nations—then you'll give every dollar you can. Your donation will save many lives. Every dollar is urgently needed NOW.

## 2 FOOD WILL BE

From Page 4, Column 6  
told me that at present no provision had been made for increased acreage in tomatoes—and this at a time when the plants were out of ground in the greenhouses.  
"That 42 per cent increase in sugar beets that they talk so much about! It must be remembered that you not only get sugar from sugar beets, you have the food for cattle a product for which the authorities are asking a 9 per cent increase. It is my job to keep pretty close tabs of the sugar situation. In western Canada, at the present time, I cannot see any possibility of increased sugar production from the Alberta factories—and yet it would take an additional 26,000 acres to supply the needed 42 per cent increase."

"When it was necessary to have more ships, planes, tanks and guns, the Department of Munitions didn't just put advertisements in the papers and send a lot of leaflets around the country telling the shipyards and the machine shops that they knew that labor was scarce, and that machinery was rationed, yet, in the face of these tremendous handicaps, Canadian machine shops must increase production of the munitions of war. They guaranteed a profit to the operators and saw to it that they got sufficient labor and material to run their plants. They also made the price high enough for shipyards and machine shops to attract labor from other industries, including agriculture."

### Farmer a Sucker

"Well, then, what makes any one think you can get increased production in agriculture by any different method? Is it because the farmer has been a sucker for so long that Ottawa thinks he doesn't know better or is it just sheer ignorance? "The mails may be full of literature instructing and pleading with farmers, the air may be full of speeches of how men and women in munition factories, on railroads, in mines and mills, must be well nourished for their strenuous work. The production of food will never reach the proportions necessary to meet the needs I have outlined, until prices are at a level which will enable farmers to pay wages that in some measure compete with industrial enterprises."

"In other words, when industrial wages were allowed to rise a certain inflation took place that cannot be denied.  
"No matter how much the need, you can't legislate a shipyard worker out of a 90c an hour job and put him working at 45c. This latest move of trying to send grain farmers out of British Columbia where they have been making good wages back to the Prairies to produce 90c wheat just won't work. You take a man off a 90c job and compel him to take a 40c job and he won't be worth the 40c."

"Maybe to prevent a higher cost-of-living index, those in authority will refuse to follow this course of raising food commodity prices, either by subsidy or by consumer, paying more at the grocers. If this is so, then other means of providing the farmer with reasonably low-cost labor will have to be instituted.  
"One thing certain is that, unless our food situation is to become even more desperate than it is at present, unless we are going to fail utterly in fulfilling our promise of deliverance to the starving millions of Europe when the war shall end, some method of providing agricultural labor has to be devised."

**Local Situation**  
"Our own Valley situation is as desperate as any. I am not discounting the splendid effort made last year on the part of our businessmen in getting the crop off the trees. We hope you will be prepared to do the same again. The wonderful contribution made by the High School children and housewives deserves full recognition. But this is only at thinning and picking time. The proposed plan to erect properly equipped camps throughout the area, even if successful, will only be to take care of that seasonal work."

"Farmers are now short of year-round help. Some people are inclined to think that if labor is provided for picking and packing of our fruit that everything will be all right. There are the strenuous jobs like spraying, which the casual labor could not do even if time could be spared to try it. There is cultivation and irrigating. Then, too, this seasonal labor makes no contribution to the production of vegetables which is really more vital to our food program."

"A committee of the B.C.F.G.A. is struggling with this problem, assisted in any way possible by our Provincial Minister of Agriculture, but, frankly, I cannot see adequate relief in sight. Last year, with slightly better labor conditions than are in sight for 1943, we lost thousands of dollars because of the lack of labor, and unless there is a drastic change I cannot see how even greater losses can be avoided this year."

**Redouble Efforts**  
"We who live in the Valley will have to redouble our efforts in assisting not only the local farmer but Canada and the United Nations in the production of food. The time has gone when any of us must allow any personal prejudices to interfere in the maximum production of food. The time has gone when we can allow ourselves the luxury of pet fetishes. Anyone who today interferes with the production of food goes over to the side of Hitler. When you take action to slow up the production of food you smother the chance to live away from starving children."

"Lots of mistakes are being made in our food production program, but they are not being made intentionally. They are being made through ignorance of conditions. Let none of us who know the score, or should know it, do anything that will hamper the farmers in the production of food necessary, first to keep the wolf from the door, then when the picture becomes more clarified let us as citizens, as Rotarians, use our every influence to see to it that when there comes the victory of battleships and planes and guns and tanks we shall have our storages, warehouses, wharves and ships loaded with the millions and millions of tons of food that we used to call surpluses, but will this time be the final weapons of victory."

## FILM SHOWING AT WINFIELD

Pictures Produced by National Film Board Are Enjoyed at Community Hall

The National Film Board again presented one of their most interesting movies at the Winfield Community Hall on Thursday evening. The main feature was a picture entitled "Women Are Warriors," showing the formation and progress of the Women's Army, first in the British Isles and later in Canada. Another interesting item was a showing of scenes taken in Brazil, with descriptions of its geography, products and customs of the people. "Channel Incident" was based upon the capture of the Lusitania and showed how even the smallest boats helped in the miraculous rescue. Study groups will be formed to discuss further various subjects pertaining to the pictures shown.

A very important meeting of the Winfield School District will be held at the Community Hall on Thursday evening, March 18. All taxpayers are especially asked to attend in order to vote on the following: (1) the election of an auditor for the balance of the 1942-43 school year; (2) providing transportation for the pupils; and (3) authorizing the borrowing of money for the transportation of High School pupils.

It is reported that the local Red Cross drive is going very well, and at present returns seem to promise to exceed last year's.

F. C. Brown, of Vancouver, is spending a few days at his farm, "Clairmont."

Mr. and Mrs. S. Edwards had as their guest this week Mrs. Edwards' aunt, Miss Jennie Bennett, of Kelowna.

Mr. and Mrs. Alex. Morrison have moved into the house formerly occupied by Mrs. J. Aberdeen. Mrs. Aberdeen is living at present in a smaller house on the same property, prior to moving to Nelson, where she will reside with her daughter and son-in-law, Mr. and Mrs. F. Irwin.

Stanley Jones, of the wireless division of the R.C.A.F. at Vancouver, is spending a leave at the home of his parents, Mr. and Mrs. S. C. Jones.

Mr. and Mrs. G. Elliot have as guests this week Miss Zella Monford and Alan Elliot, of Rutland.

Mrs. Esther Jones, of Kelowna, is visiting this week at the home of Mrs. E. Steele.

Mrs. D. Clark and Mrs. V. R. McDonald are patients this week at the Kelowna General Hospital. Mrs. G. Elliot arrived home on Thursday last from the hospital, where she had been confined with flu.

William Harrison, of Princeton, has moved to Winfield, where he will be employed on Clairmont Ranch. Mr. Harrison's family will join him later.

## LOCAL CATTLE TO KAMLOOPS

Twenty-six head of cattle are being sent by the Okanagan Investments Co., Ltd. to the Kamloops Fair Sale and Pot Stock Show, which is being held on March 22 and 23. The animals are beef cattle and are part of the stock of the Simpson Ranch, Rutland, which is operated by the company. The cattle are being sent to Kamloops in charge of R. Stewart, of the Simpson Ranch.

### CITY SELLS LOT

A by-law validating the sale of a small 25-foot lot, on the north side of Fuller Avenue, for \$25, was finally passed and adopted by the City Council on Monday evening.

"Farmers are now short of year-round help. Some people are inclined to think that if labor is provided for picking and packing of our fruit that everything will be all right. There are the strenuous jobs like spraying, which the casual labor could not do even if time could be spared to try it. There is cultivation and irrigating. Then, too, this seasonal labor makes no contribution to the production of vegetables which is really more vital to our food program."

"A committee of the B.C.F.G.A. is struggling with this problem, assisted in any way possible by our Provincial Minister of Agriculture, but, frankly, I cannot see adequate relief in sight. Last year, with slightly better labor conditions than are in sight for 1943, we lost thousands of dollars because of the lack of labor, and unless there is a drastic change I cannot see how even greater losses can be avoided this year."

**Redouble Efforts**  
"We who live in the Valley will have to redouble our efforts in assisting not only the local farmer but Canada and the United Nations in the production of food. The time has gone when any of us must allow any personal prejudices to interfere in the maximum production of food. The time has gone when we can allow ourselves the luxury of pet fetishes. Anyone who today interferes with the production of food goes over to the side of Hitler. When you take action to slow up the production of food you smother the chance to live away from starving children."

## RUTLAND LOSES HOCKEY GAME

Drop Tussle to Vernon Juniors by 8-4 Score—Zero Weather in March

Rutland's Junior hockey team journeyed to Vernon on Monday evening for an exhibition game at the Arena with the Vernon Juniors and took the short end of an 8 to 4 score in an interesting contest. The local boys were somewhat out of practice, as the rink here has not been in operation for many weeks. The way the weather has been lately, though, it would not be difficult to maintain a sheet of ice even at this late date, if any shade was available. On Tuesday morning the thermometer hit zero, something of a record for the middle of March.

Miss Audrey Gibson, accompanied by a friend, Miss Claire Johnson, both employees in the office of McLean & Fitzpatrick, Ltd., left on Wednesday last for two weeks' vacation in Vancouver.

Trooper Leonard Brown, son of Mr. and Mrs. Floyd Brown, has been home on leave from Camp Borden during the past week.

Sergt. Pilot Dick Reith is home from Calgary on three weeks' furlough.

Miss Betty Petrie, daughter of Rev. and Mrs. J. A. Petrie, was here on a short visit over the weekend, returning to Copper Mountain on Tuesday evening.

Mrs. W. H. Forster left last week for Calgary to visit her daughter, Mrs. Sackett, who recently met with a painful accident, breaking her hip in a fall on an icy street.

Mrs. W. Heron returned on Friday last from Calgary, Alberta, after an extended visit.

The World Day of Prayer was observed locally with joint services at the Rutland United Church, attended by all Protestant denominations, on Friday, March 12.

Rev. J. A. Petrie left on Monday for Kamloops by car, en route to Vancouver to attend a meeting of the Home Missions Committee of the United Church.

The local Boy Scout Troop is planning a "Parents' Night" on Monday evening next, to which all interested in the Scout movement are invited. The annual meeting of the local Scout Association will be held afterwards. One of the features will be the "Roll of Honor" of the Troop, "Roll of Honor" on which are inscribed the names of thirty-eight former members of the Rutland Troop who have volunteered for active service.

## 1ST RUTLAND TROOP

"Do a Good Turn Daily"

Orders for the week ending March 27:  
The Troop will parade in the Community Hall on Monday, March 22, for the annual public Scout meeting, at 7:20 p.m., in full uniform. Duty Patrol: Seals.

Most of the evening on Monday last was devoted to rehearsing for the coming display at the public Scout meeting. Two new recruits were added to the strength, L. Kimmery and Duggan. This brought the total to thirty-eight. Owing to a quite a lot of flu being around, the attendance at this meeting was down to 28 Scouts.

The program at the meeting next week will include the following: Flag break and Roll Call; marching and games; First Aid display; by Beavers; relay races; Scout Law play, by Eagles; games; period; knot tying, by the Foxes; investiture ceremony; demonstration of the uses of the Scout staff, by the Seals; presentation of badges; flag lowering; unveiling of Troop "Roll of Honor."

Patrol Competition Standing	
Seals	1534
Foxes	1516
Eagles	1205
Beavers	971

## LOTS RENTED FOR PASTURE

Kelowna City Council Approves Use of Various City Owned Lots

Rental of a number of City-owned lots for pasturage purposes was approved by the City Council at its meeting on Monday night. Twenty lots were rented to J. N. Cushing at an annual rental of \$10, and August Ciancone secured two lots for \$5. In both cases the tenants agree to keep the properties free of noxious weeds, and the lots may be sold by the City at any time. Mrs. Sybil Maude-Roxby's application was approved at a rental of \$7.

The application of A. E. Tellman for the rental of 32 lots for \$10 was not approved, as the amount offered did not cover the minimum of fifty cents a lot. He will be notified that the City will rent the lots for \$16 annual rental.

## AFLOAT OR ASHORE

WHEN THE JOB'S TOO BIG for SOAP use SNAP

CLEANS DIRTY HANDS

## BOYSCOUT COLUMN

1st Kelowna Troop Troop First Self Last!

15th March, 1943  
Orders for week commencing Friday, the 19th of March, 1943:  
Duties: Orderly Patrol for week, Cougars next for duty, Beavers.

Patrol: The Troop will rally at the Scout Hall on Tuesday, the 23rd of March, at 7:15 p.m.  
At the rally last week we held a Patrol King's Game competition, resulting in a win for the Beavers with an average of 17½, followed by the Cougars with 16½ and the Otters with 16½. Those securing a pass mark were: P/L Phil Noonan, 20; P/L John Yoshioka, 19; Second Frank Black and Scout Lyle Hornor, 18; Acting Second Pat Noonan, 17, and Scouts Ron Henderson and Don Catchpole, 16.

We also held a Patrol competition in giving an illustration of the 2nd Scout Law, "A Scout is Loyal," which was won by the Beavers and Cougars in a tie.

The application of Victor J. Kazimirovich to join the Troop has been accepted and he has been posted to the Otter Patrol.  
The Military Hospital at Vernon sent down a truck recently to pick up all the medicine bottles we had collected, and we are now ready again to receive all that any one can give us.

Scouts who have been on the receiving end of any signalling know how difficult it is sometimes to distinguish between some of the spoken letters of the alphabet. The same difficulty is experienced when some one is trying to spell out a name to you over the telephone. That is why each letter has a word to represent it and of recent years these words have been changed, so now the Armed Forces of Great Britain, Canada and the United States have got together and have adopted a standard set of words for the above purpose. Ability to give these words will also be the subject of a Patrol competition at an early date, so Scouts should cut out this list and commit it to memory. Here it is:

A—Able	N—Nan
B—Baker	O—Obey
C—Charlie	P—Peter
D—Dog	Q—Queen
E—Easy	R—Roger
F—Fox	S—Sugar
G—George	T—Tare
H—How	U—Uncle
I—Item	V—Victor
J—Jim	W—William
K—King	X—X-ray
L—Love	Y—Yoke
M—Mike	Z—Zebra

"What Does a Scout Carry in His Pockets?" Under this heading we read in the February Scout Leader that "Scouts are supposed to carry certain useful items in their pockets at all times. District Commissioner George Mason, of Acton, Ont., made this topic the subject of an inspection on a Troop visit. A 'Pocket Inspection' was made, and each boy was supposed to have a piece of string, a knife, a dime and a clean handkerchief." We therefore now give warning that we shall hold a "Pocket Inspection" at one of our coming rallies by way of another

"I TRY SLOAN'S UNIMENT IT'LL HELP FIX YOU UP"

You don't have to rub it in ... Just pat it on and feel its penetrating warmth—it's not greasy—it helps nature heal faster—a SAFE liniment for all the family—Keep a bottle handy.

For Quick Relief from strains, pains, bruises, minor sprains, muscular cramps, neuralgia, frost bites and chest colds.

SLOAN'S Family LINIMENT

Patrol competition. Points will be given, and any Scout who has the above four articles will receive 100 per cent.

The nature of all men is so formed that they see and discriminate in the affairs of others, much better than in their own.—Terence.

## They need YOUR Help!

This Space donated by the KELOWNA SAWMILL CO., LTD.

more than ever NOW!

As the war widens and intensifies, the need grows. There is infinitely more need for your Red Cross dollars this year than last. There must be more of them, if the need is to be met. Prisoners of war, bomb victims, refugees, the wounded, the dying, the destitute everywhere, count on your Red Cross dollars for help. Dare you fall them?

\$10,000,000 needed

March 1-20, 1943

### DELICIOUS MEATLESS MAIN DISH

"MAGIC" VEGETABLE CHEESE ROLLS

2 cups sifted flour	1/2 lb. whole cooked string beans
3 tsp. Magic Baking Powder	3 tbs. chopped onions
1 tsp. salt	3 tbs. shredded green pepper
2 to 4 shortening	Melted butter
3/4 to 1 cup milk	Seasoning to taste
1/2 lb. whole cooked carrots	

Sift dry ingredients, cut in shortening. Add milk to make soft dough. Knead lightly on floured board, roll into 3 inch squares. Quarter carrots lengthwise. Combine all vegetables with butter and seasoning, place a portion on each square of dough. Wrap dough around filling, press edges together. Bake on baking sheet in hot oven (450° F.) 10 to 12 minutes. Serve with cheese sauce.

MADE IN CANADA

THE BRITISH COLUMBIA FARM LABOUR PLAN

BRITISH Columbia's fertile land can and will produce huge quantities of foodstuffs and vegetable seeds. War has taken away the husbandmen. Their labour must be replaced if food is to be produced. The machinery is now set up to organize citizens in another important army—a patriotic body of earnest volunteers prepared to do their utmost in this important phase of the war effort. Its successful operation must be assured if a food supply is to be produced, and can only come when every individual who can physically do some work volunteers and goes to that work when called upon.

The situation is serious and demands the careful consideration of British Columbia citizens—every one of them whether in city or country. With the splendid records of war effort sacrifices already made by our Communities and in view of the dire need for food, the outcome of this farm labour plan can be awaited with confidence.

The largest delegation of farmers in history, representing all types of agricultural production, recently met the British Columbia Government. They asked for some organized plan of farm labour supply that would give reasonable assurance that what farmers plant this spring will be harvested in the fall. Specifically they asked that the Dominion Government be requested to participate on a cost sharing basis similar to that effective in Ontario.

The delegates as a body also met for the purpose of forming a committee to direct the organizing of all the farm areas so that each individual would have an opportunity of participating in the province wide community effort. The provincial districts are: Vancouver Island, Fraser Valley and Lower Mainland, Mainline, North Okanagan, South Okanagan, Kootenays, Central B.C., Peace River.

The Departments of Education, Labour and Agriculture have as well set up an inter-departmental committee to assist in this matter.

Given the enthusiastic co-operation and support of every man, woman and teen age boy and girl in city and country, the food production situation in British Columbia should rapidly assume a brighter outlook and there is now every hope that our armies and civilian population will be fed next winter.

DEPARTMENT OF AGRICULTURE, Parliament Buildings, Victoria, B.C.  
Hon. K. C. MacDonald, Minister.

## WORKING TOWARDS HARMONY

Urban and Rural Interests  
Tackle Labor Problem—  
Talks "Clear The Air"

This week various city organizations are considering reports given by their representatives following a meeting held last Wednesday night, when the subject of orchard labor was discussed between urban representatives and representatives of the B.C.F.G.A.

The meeting was a harmonious one and was generally voted a success from all points of view. It was felt that the discussion did much to "clear the air." The primary purpose of the meeting, which was called by the City Council, was to find some common ground upon which the Japanese and the orchardists could work toward the successful growing and harvesting of the crops of this district.

The problem was discussed from all angles, the B.C.F.G.A. men pointing out that labor in the area had decreased since last year and that one of their most pressing problems was the obtaining of sufficient help in spraying and irrigating. These are season-long tasks, and it is estimated that between three and five hundred men for these purposes will be needed.

The only possible source of this labor would appear to be Japanese, the growers maintained. It is understood that city representatives offered no objection to Japanese being used for such work, provided they were brought in on a temporary basis and removed at the conclusion of the harvest. This is in accordance with the general policy outlined last May by the Okanagan and Mainline Security Committee.

All the city representatives were not entirely happy, however, about the suggestion that Japanese be brought in under any circumstances. City representatives generally expressed the fear that should Japanese be brought into the district, the city dwellers would not make a great effort to assist in the thinning and harvesting.

The opinion was expressed that the city could make a greater effort than it did last year, but, should Japanese be used, the natural reaction would be to leave the work to the Japanese, as the city dwellers would go solely in a spirit of assistance. The growers present argued that this was hardly a fair attitude to adopt, as many growers do not desire to use Japanese and these growers would be penalized because a minority of the growers had decided to use Japanese.

The meeting finally decided that all representatives should go back to their organizations and discuss the matter with them and be ready to report to another meeting. This meeting will probably be held within the next few days. The Kelowna Junior Board of Trade, it is understood, has decided to not lend its support to the suggestion that every effort be made by the townspeople to help in the harvest, even though some Japanese are used in the district.

On the other hand, the Kelowna Board of Trade has decided to do everything in its power to assist in the harvest, regardless of whether Japanese are present in the district or not.

It is understood that Japanese labor may not be available, or, at the best, scarce, as many are being sent to the beet fields of Ontario, Manitoba and Alberta.

**SUMMER HOUSE IN  
PARK IS DAMAGED**

Alderman Jack Ladd reported to the City Council on Monday night that the glass in the summer house in the City Park has been destroyed during the winter. It is thought that the inevitable small boy is responsible, and apparently the glass presents an irresistible target during slingshot practice.

The glass will be replaced, but it is planned to remove the windows during the winter months.

## WITH THE SERVICES

(Friends and relatives of men who are serving in any branch of His Majesty's Services are invited to send in contributions to The Courier for this column, either by mail or phoning 94.)

Nursing Sister Sheila Walker, daughter of Mr. and Mrs. W. D. Walker, Okanagan Mission, who is stationed at the Victoria Military Hospital, is spending her furlough visiting her parents. She will return to her station on Friday, March 20th.

Mr. and Mrs. C. R. Renals recently received a cable from their son, Pte. George D. Renals, R.C.A.F., stating he had arrived safely overseas.

A.W.I. Norah Perry, R.C.A.F. (W.D.), is spending her leave visiting her parents, Mr. and Mrs. H. Perry, East Kelowna.

3/O. G. A. Brodie, W.R.C.N.S., was a visitor in Kelowna on Monday for several hours.

Word has been received by his parents, Mr. and Mrs. W. H. Rennie, that Petty Officer John Rennie, R.C.N., is one of the crew of the newly commissioned Tribal destroyer, H.M.C.S. "Athabaska." P.O. Rennie and his brother F.O. Geoff Rennie, R.C.A.F., met recently for a short time while the latter was on leave.

A.B. Allan Tassell, R.C.N., son of W. H. Tassell, North Street, has just joined the corvette H.M.C.S. "Kamsack."

Wireless Operator Walter Dunham, R.C.N.V.R., returned to his station at Esquimalt last Friday after spending his leave in Kelowna visiting his mother, Mrs. W. B. Day, DeHart Avenue.

Sgt. Pilot R. (Dick) Reith, Cdn. Air Force, is visiting his relatives in Kelowna for a few days prior to returning to duty.

Fred Stephens, Rutland, left last week for Edmonton, where he will join the R.C.A.F.

Cpl. Ron Weeks, who is an instructor at Gordon Head, is spending a week's leave in Kelowna, visiting his wife and parents.

Pte. R. F. Gale, Red Deer, Alta., is spending his furlough visiting his parents, Mr. and Mrs. F. Gale, Elliott Avenue.

Miss Nan Collett, daughter of Mr. and Mrs. H. S. Collett, left on Sunday for Galt, Ont., where she will report for duty with the W.R.C.N.S.

Gladys Harvey, C.W.A.C., spent a few hours at her home in Kelowna this week, after graduating from St. Anne de Bellevue, Quebec, as Platoon Sergeant. Sgt. Harvey will be leaving for the East shortly.

N. Parkins, advertising manager of The Courier, leaves this week to report to the R.C.A.F. at Edmonton. He leaves after an association of nearly four years with this paper, having come to Kelowna from the Penticon Herald. Mrs. Parkins and small daughter are taking up residence in Penticon, which is her home. The Courier, like many other businesses in Kelowna, has suffered many staff changes due to enlistments in the services or war work. The first to leave was F.O. Fred Waterman, photo-engraver and circulation manager, who has been in Libya for more than a year and distinguished himself by winning the Distinguished Flying Cross.

J. R. "Bert" Armstrong, former news editor, is now with the Canadian Army in England. Sgt. Obs. Nestor Kowalsky, linotype operator, is now with his squadron in Africa. Cpl. Jack Appleton, pressman, is with the Canadian Army in England. Harry Credin, former pressman, is with his basic R.C.A.F. training at Edmonton, and expects to join the air crew. J. Noonan, apprentice, is taking his basic training in the R.C.A.F. at Edmonton. Fred Ruesen, former pressman, is with the R.C.A.F. in Edmonton, with the ground crew division. G. Haskins, former circulation representative, is serving with the R.C.A.F. on the Pacific Coast. Myrtle Hawkey, former bookkeeper, reports to the R.C.A.F. (W.D.) in April. Jean Schooley, bookkeeper, is serving in a war industry in Toronto.

A.B. Doug Hubbard, R.C.N.V.R., son of Mr. and Mrs. Charles Hubbard, is spending two weeks' leave in Kelowna visiting his parents. A.B. Hubbard is stationed at Esquimalt.

Capt. Paul Hayes, Vancouver, is a visitor in Kelowna this week while on furlough. Capt. and Mrs. Hayes leave on Friday to spend a week's holiday at the Coast.

Flight Sergeant John de C. Paynter, R.A.F., arrived on Saturday to spend a month's leave with his parents, Mr. and Mrs. E. C. Paynter, Westbank. Flight Sergeant Paynter has been six years in the R.A.F., four of which he was stationed in Egypt and Malta.

## WAR FILMS TO BE SHOWN AT LEGION HALL

Robert Macnicol Will Present  
Talking Pictures and Speak  
on Work Overseas

A showing of sound pictures of life in war time will be held at the Canadian Legion, Kelowna Branch, next Tuesday night at 8 p.m. Speaker will be Robert Macnicol, who returned from overseas a short time ago. He is executive secretary of the B.C. Provincial Command, B.E.S.L.

Mr. Macnicol has been overseas for the past eighteen months, where he acted as manager of Canadian Legion Services in Great Britain. He will have an interesting story to tell of his experiences there and will also deal with current events so far as they concern veterans of the present and previous wars and their dependents.

## BOARD EXEC. APPROVES COMMITTEE

Decision to Organize White  
Labor For Orchards in Spite  
of Use of Japs Passes—Jay-  
bees Against Stand

The Executive of the Kelowna Board of Trade decided, at its meeting last Tuesday morning, that it would join with the other organizations represented on the city labor committee and the B.C.F.G.A. in appealing to the residents of Kelowna to assist in orchard labor this year.

The decision was made after some discussion, and the Board took the stand that, irrespective of the use of Japs by growers, local citizens should co-operate.

Harry Witt, representing the Kelowna Junior Board of Trade, opposed the decision and stated that the stand of his Board, The Junior Board, stated Mr. Witt, not only take the stand that there should be no assistance if Japanese are imported for orchard work, but also request that the Federal Government carry out its promise to evacuate all Japanese who infiltrated into the district before the B. C. Security Commission restricted their labor to the use of Japs.

The efforts of the special committee to get assurance from growers were apparently unavailing at a meeting held in camera last week. It is understood that growers' representatives refused to agree not to ask for Japanese. They took the position that help was needed for spraying and pruning before the thinning and picking season, and stated that the only available help was Japanese.

In addition, it is indicated that growers take the position that sufficient "town help" will not be secured and that Japanese are more efficient.

The Board of Trade executive in the main took the stand that the growers cannot promise to dispense with Jap labor when they have no definite assurance that other adequate labor will be supplied. Under these circumstances, the executive were of the opinion that use of Japanese by some growers should not lessen public co-operation, particularly as the Japs are not to be given their own white help to get their crop off the trees.

## TWO-YEAR-OLD WANTED SMOKES

Missing Tommy Lines Turns  
Up at Mission Store

Trudging over a mile through a snow storm, with an anxious puppy at his heels, a wee scrap of humanity went shopping on Saturday. His desire—"tobacco to take to Daddy in hospital."

A phone call soon located his frantic mother, and Tommy Lines was returned safely home, leaving his self-imposed errand uncompleted. Tommy is two.

With returns not yet complete, local Red Cross collections are reported by Major Houlton to exceed \$1,525.

Mrs. J. V. Wilson and her young son, Brian, arrived home from the hospital last Wednesday.

Nursing Sister Essie Walker is spending two weeks' leave with her parents, Mr. and Mrs. W. D. Walker.

Mrs. R. Houlton returned on Thursday last, after spending nine weeks' holiday at the Coast.

Miss Nancy Collett left on Monday for Galt, Ontario, where she will join the W.R.N.S. Miss Collett is the first local girl to enter the Navy.

Mr. and Mrs. E. Murdoch returned from the Coast on Tuesday.

One hardy and patient fishing enthusiast, C. Sarsons, reports a twenty and a fifteen pounder in one afternoon's catch.

Not unting of mention were a nine and ten and a half pounder hauled in by H. Nichols this week.

Mrs. D. Baillie has had word that Anthony Topley arrived safely in London on January 30th, after an uneventful four months' journey around the Panama.

## PRESENTATION BY LEGION W.A.

Past President Badge is Given  
to Mrs. Craft—Secretary and  
Treasurer Honored

At a general meeting of the Canadian Legion Auxiliary, Tuesday, March 16th, a Past President's badge was presented to Mrs. Craft. Presentations were also made to the retiring secretary and treasurer.

It was decided to hold a tea at the Legion Hall on Saturday, March 27th. Admission will be spoons of thread, tape, buttons, or a square of material suitable for quilt-making. A rummage sale was planned for Thursday afternoon, April 8, at the Orange Hall. Convener is Mrs. Lockwood, and donations of clothing and other articles will be appreciated. Mrs. Jones was appointed social convener for the next three months, with a committee of Mrs. Paisley, Mrs. Roberts and Mrs. Jones-Evans.

## WILL CHANGE STORE HOURS

Bylaw Being Prepared by the  
City Solicitor at Request of  
Merchants

The Kelowna City Council by resolution instructed the City Solicitor to prepare a by-law under the Shop Hours Regulation Act, changing the closing hours of business premises in the city.

The action was a result of a petition filed by the Retail Merchants Bureau, which asks for the change. Under the new bylaw, city stores will close at five o'clock each afternoon except the Thursday half-holiday and Saturday. Stores will close at 9 p.m. Saturday nights. An exception is made for Christmas Eve closing, which will be at 9 p.m.

More About

## 6 NEW LABOR

From Page 1, Column 7

In Ontario a farm labor corps was established with the assistance of the Dominion Government. Last year more than thirty thousand boys, girls and women from Ontario cities went into the rural areas and assisted in agriculture. This year the number is being stepped up to more than a hundred thousand, so successful has the scheme been after two years' tryout.

The plan involves the establishment of camps in certain areas. These camps are under the jurisdiction of such organizations as the Y.W.C.A. They need definite health standards and diet is carefully watched. They are in effect well organized camps.

From these camps the girls go each morning to work on the neighboring farms, returning each night. It is suggested that the Dominion Government will enter the picture on the transportation end. Should workers come into the camps from outside British Columbia, it is probable that the cost of transportation to the camps would be borne in part or wholly by the provincial government.

For two years the B.C.F.G.A. and other bodies interested in the problem of rural labor have been advocating that such a scheme be considered seriously in British Columbia. A minor tryout was given last year in the Fraser Valley, where berry picking was undertaken.

The Okanagan with its fruit picking would seem to be an ideal spot for an extensive use of the scheme.

### MEDICAL COSTS OF OLD AGE PENSIONERS

The City Council went on record at its meeting on Monday night as disapproving the plan proposed by the Provincial Government that half the medical costs of old age pensioners be paid by municipalities.

While admitting that the new scheme is an improvement, the Council reaffirmed the stand taken by the Union of B.C. Municipalities and the Okanagan Municipal Association that this cost should be entirely a government responsibility.

### CITY ASSESSMENT SHOWS INCREASE

A report of increases in the assessment of city property was presented to the City Council at its meeting on Monday night.

Land assessments have increased by \$972.50 and assessments of improvements are up \$171,375. The assessment of lands within the Kelowna School District but outside the city limits is up by \$10,745. Total increases amount to \$182,362.50.

A. K. Loyd and L. Booth, of B.C. Tree Fruits Ltd., are in Vancouver this week.

## HARRY WITT AGAIN HEADS JAYBEES

Replaces Ed. McDougall Who  
Resigned Shortly After His  
Election Owing to His  
Transfer to Wells

Harry Witt has been elected by the Kelowna Junior Board of Trade executive to the position of President, replacing Ed. McDougall, newly elected prexy, who resigned recently.

Mr. McDougall has been transferred to the Wells branch of the Royal Bank as manager.

Prior to Mr. McDougall's election, Harry Witt had filled the position as Jaybee President for eighteen months. He took over when Lieut. Tim Armstrong joined up, and after serving during the balance of his term, was re-elected last year. Vice-President Harry Mitchell informed the executive that he was loath to accept the presidency owing to pressure of business and could only do so under certain conditions. The executive apparently felt that its President should not be limited in his activities, so Past-President Harry Witt was nominated and elected to again head the Kelowna Junior Board of Trade.

### SWIMMING POOL

Not deterred by the last minute withdrawal of the C.N.R. pile driver owing to lack of a suitable tug to handle the barge, the Kelowna Aquatic Association is hoping to secure the co-operation of the Provincial Government pile driver in completion of the job of driving piles for the swimming pool in front of the clubhouse.

The Association has communicated with the department of works at Victoria and is hopeful that provincial engineer Stevens will be authorized to proceed with the work. Final decision in the matter is expected within a few days.

### GIFT OF SUN DIAL TO CITY BY F. M. BUCKLAND

At their meeting on Monday night, the appreciation of the City Council, on behalf of the citizens, was extended to Frank M. Buckland for land.

## 4 SMALL INCOME

From Page 1, Column 8  
those nine persons receive more than 75 per cent of the national income.  
In the light of these figures, then, it is evident that, if the Victory Bond purchases are to be increased, the income must come from where the money is—the low income bracket. A greater effort must be made to get the small man to subscribe. In other words, there must be a much greater response from labor than there has been.

**Farmers**  
Mr. Wardhaugh stated that the Government was hoping for a much greater response from the farming community this year. The farmer's position is clearly understood by loan officials, but it is felt that, generally speaking, agriculturists have enjoyed higher incomes this year and that the purchases of Victory Bonds by this group should be greater than last year.

The farmer's part in the war effort has been set out in three phases: produce all the food he can; reduce his mortgage to a manageable figure; purchase Victory Bonds and War Savings Certificates.

The speaker pointed out that the War Finance Committee felt that, if a farmer reduced his mortgage, the money he saved would find its way into Victory Bonds via the mortgage company.

He suggested that the farmer who is wise would purchase Victory Bonds so that he would have the cash wherewith to buy tractors, sprayers and other necessary equipment which are not available now but will be immediately after the war.

**Selling Cost Under One Per Cent**  
Never in the financial history of this continent, said Mr. Wardhaugh, had such large loans as the Victory Loans been sold at so little cost. The cost of the Victory Loans to the Government is less than one per cent, a figure several points lower than might normally be expected.

**Kelowna's Good Job**  
The provincial general sales chairman praised the effort of the Kelowna committee and the district. He stated that Kelowna was doing a war finance job vastly superior to most of the other communities in the province and in Canada. He expressed the hope that the fine record already established would be continued.

## PEACHLAND CONSIDERS FUEL PROBLEM

Call Extended to Rev. A. D. McKinnon—Word of Pringle Funeral—To Hear Legion Speaker

A community buck saw bee, to cut up limbs that could be used for summer wood, was the suggestion of Councillor J. H. Wilson at the regular meeting of the Peachland Municipal Council, held Wednesday, March 10, brought up by Rev. Mrs. B. F. Gummow and discussed was the question of fuel for next winter.

An application from T. McLaughlin to buy lot 3, Block 5, Plan 400, was received and was accepted. A request from D. Cousins for a lot was not accepted, as the price offered was insufficient.

The Municipal Clerk, C. C. Inglis, gave a short report on the annual meeting of the Okanagan Municipal Association, held at Vernon.

A donation of \$50 was voted to the Salvation Army.

A Councilor's report on the annual meeting of the City Council on the fuel situation when the Council met on Monday night. He stated that 12,000 extra ricks of wood would have to be found this year, as the reserve supplies built up during the past five years had been pretty well exhausted.

He said that plans were being laid to assure an adequate supply from bona-fide dealers in the city. During the emergency period of cold weather licence regulations had been overlooked and many loads were brought in by unlicensed wood dealers. The price charged in many cases was under the market, and Ald. Sutherland pointed out that this "bootlegging" would have to be regulated if the regular dealers were to carry out final plans for cutting.

**WORK STARTED ON BUCKLAND AVE. BRIDGE**  
Water Street Bridge Will Also Be Completed—No Flood Conditions Expected This Year

Work has been started on construction of the Buckland Avenue bridge over Mill Creek by the City works department, and after its completion the crew will proceed with the building of the final bridge on Water Street, Alderman George Sutherland reported to the City Council on Monday night.

Alderman Sutherland also advised that work is proceeding with the cleaning out of Mill Creek and that quite a lot of clearing has been done along its banks. The deepening of the creek has been delayed by high water during the winter, but Alderman Sutherland stated that flood conditions such as existed last spring are expected this year.

The lake is down to the minimum of 99.5 feet and conditions of runoff at Penticton are greatly improved.

Snow conditions at McCulloch are only slightly above normal, with approximately seven inches of water content. With the lake kept at 99.5 and increased flow down Okanagan River, no difficulty in freshet control is anticipated, Alderman Sutherland stated.

By combining the proceeds from the Burns supper and the Valentine tea, fifty dollars was made to buy a Victory Bond, which was reported at the Women's Institute, Ten dollars was voted to the Kelowna Hospital Auxiliary for the linen fund. The meeting was in charge of Mrs. H. Sutherland, convenor of Citizenship and Better Schools.

Miss D. Mattie, teacher in the Junior Room, gave a very interesting talk on "The Value of Practical Arts," how they help pupils to use their hands as well as their heads, help minds to control muscles, teach appreciation, usefulness, thoughtfulness and independence. She displayed two sheets, bedspreads, and a chest of drawers, all made of monk's cloth, the patterns created and worked by the children.

J. K. Treacren, principal of the High School, took as his subject "The Place of the School in the Community," dwelling upon the vital part of the schools in satisfying the needs of the individual and the matter of propaganda.

The Peachland Branch of the Canadian Legion has received word that Robert Macnicol, Secretary of the Provincial Command, is lecturing throughout the Okanagan Valley this month and will visit Peachland. He recently returned from England, where he spent eighteen months. He will lecture in the Legion Hall at 8:00 p.m., Wednesday, March 24.

An account of the death of Flying Officer George Pringle has been received from Maurice Elliott, of London, England. The Halifax bomber crashed soon after taking off, instantly killing the crew of seven, three of whom were Canadians. The Canadian victims were buried in a lovely church-yard at Brangore, not far from Bourne-mouth, with full military honors, the coffins being carried by fellow pilots and interred side by side.

A congregational meeting of the Peachland United Church, on Wednesday, March 10, extended a call to Rev. Dr. A. D. McKinnon to be minister of the Peachland-Westbank pastoral charge. Three members of the Westbank Board of Stewards attended.

Mr. and Mrs. P. N. Dorland returned home Monday of last week, after spending the week-end with friends in Vernon.

Miss Edith Duguebin now has a position with Boyles Bros. Drilling Co., in Vancouver.

R. Harrington has returned home after a week spent at Chilliwack and Vancouver.

Dr. Gordon White visited friends in town for a few days. Mr. Bryson White was a visitor in town last Tuesday.

Miss Annie McPherson is employed by Boyles Bros. Drilling Co., in Vancouver.

Mrs. McBean is a patient in the Kelowna Hospital.

Mrs. V. Milner-Jones left Wednesday of last week on a visit to Vancouver.

Mrs. Harrington returned home last Tuesday, after a week spent

## 5 NO NEED FOR ALARM

From Page 1, Column 3

"On behalf of the city I appeal to all citizens to be reasonable in their attitude towards this situation. Please do not rush and place your fingers. Do not order more than you require for the present moment. Do not order before you require to. Then, if you get only a portion of your order of sawdust or wood, please accept the situation in good grace."

"The City is fully conversant with the situation and the co-operation of both sawdust and wood dealers is being obtained. Our concern is to see that everyone has sufficient fuel to see them through the remainder of this winter. To do this, it may be impossible to permit everyone to have all the fuel that he would like to have in his cellar."

"Please be reasonable and give us your co-operation," His Worship said. "There is no need for panic."

Mayor McKay explained that the sawdust reserves had been depleted, but sawdust deliveries were being made from fresh-cut logs. Regarding the cordwood situation, he stated that the City had made arrangements to see that no one suffered, although there would be little extra to spare the individual.

Alderman George Buckland reported to the City Council on the fuel situation when the Council met on Monday night. He stated that 12,000 extra ricks of wood would have to be found this year, as the reserve supplies built up during the past five years had been pretty well exhausted.

He said that plans were being laid to assure an adequate supply from bona-fide dealers in the city. During the emergency period of cold weather licence regulations had been overlooked and many loads were brought in by unlicensed wood dealers. The price charged in many cases was under the market, and Ald. Sutherland pointed out that this "bootlegging" would have to be regulated if the regular dealers were to carry out final plans for cutting.

## WESTBANK CHURCH HOLDS ANNUAL MEETING

Rev. A. D. McKinnon Asked to Accept Pastorate—C. Butt Leads Chamber of Commerce

Reports presented at the annual congregational meeting of Westbank United Church recently were satisfactory in every way, showing as they did, increased interest in every branch of church activities. Rev. A. D. McKinnon was chosen chairman, and J. W. Hannum secretary of the meeting, which was opened with devotional exercises.

W. B. Gore presented the session report and also the treasury report, the latter standing out as the best in the history of Westbank United Church, collections and donations amounting to almost \$550.00, the budget objective. Finances and attendance at the Sunday School also showed improvement, according to Stunt Gore's report.

The report of the Women's Association, presented by President Mrs. T. B. Reece, gave an interesting account of the past year's activities, and its plans and aspirations for the future.

Mrs. M. Kingsbury, secretary-treasurer of the W.A., reported among other items, assistance to the Board of Stewards to the amount of \$40.00.

C. J. Tolhurst, reporting for the Church Building Fund Committee, gave the cheerful and encouraging information that all local indebtedness had been liquidated. The hope was expressed that the mortgage held by the Home Missions Board would be given due consideration and substantially decreased during 1943.

A vote of thanks was tendered Mrs. J. L. Dobbin, organist, and the choir for helpful assistance at divine service.

The meeting unanimously expressed their desire to have Rev. McKinnon fill the vacancy here occasioned by the passing of their revered and highly esteemed pastor, F.O. Rev. George Pringle, B.C.A. Dr. McKinnon withdrew from the meeting during the discussion on this subject, and on his return thanked the congregation for the confidence thus reposed in him.

The U.B.C. bursary proposed as a memorial to the late F.O. Pringle received the hearty support of Westbank United Church and a considerable sum was immediately subscribed by those present at the meeting.

Following the close of the meeting refreshments were served by members of the Women's Association, and a pleasant social hour followed.

Election of the Board of Stewards for 1943 is as follows: J. U. Gellatly, William B. Gore, Charles J. Tolhurst, John W. Hannum, Thos. Hall, Ira L. Howlett and Thos. B. Reece. I. L. Howlett was elected Trustee in place of the late W. R. Smith.

C. Butt was chosen president of the Westbank Chamber of Commerce at the annual meeting of that organization held recently, with W. J. L. Dobbin, vice-president, and J. Davidson, secretary-treasurer. Other members of the executive are W. C. MacKay, T. B. Reece, A. R. Hoskins and J. A. Maddock.

G. Elliott, who had spent the winter months at the Coast, returned to his Westbank home last week.

J. L. Dobbin, who had again been a patient in Kelowna Hospital, was sufficiently recovered to return home last week.

Mrs. F. Whitworth Clarke has returned to her home here after over two months spent with her sister and others at Vancouver.

Miss Frances Drought, nurse-in-training at the Royal Inland Hospital, Kamloops, spent a short time at her parents' home during last week-end, that of Mr. and Mrs. A. E. Drought, Westbank.

W. H. Hewlett, attached to the Ordnance Corps, Vancouver, who had been taking a month's training at Vernon, spent the past week-end at his home in Westbank, and has since returned to Vancouver.

Miss Olive Hewlett, who is taking a business course at Penticton, spent the week-end at her parents' home here, Mr. and Mrs. W. H. Hewlett.

The World Day of Prayer was observed in Westbank last Friday by

## Helping to House Canada's War Workers

WHEN the huge shell-filling plant came to his town, Charles Hunter got to thinking about the critical shortage of housing . . . and about the two large cottages he owned. It wouldn't cost much to modernize and sub-divide them to make comfortable homes for four families.

He talked it over with his bank manager, who extended him a \$600 loan. With the money, Hunter not only converted his cottages but took part of the loan, along with some of his rental income, to remodel another house to accommodate eight single individuals.

With the aid of the bank Hunter helped to provide urgently needed homes for war workers. He has now paid off all but \$100 of the loan. A very small amount paid out for interest has thus enabled him to more than double his former revenues.

Such modest, highly useful loans typify the contributions that the banks make to Canadian enterprise. The above story is an actual case—only the name has been changed.

More than 5,000 experienced bank men out of 14,433 have gone into the armed forces since war began. This throws a greater burden on remaining staffs and now employees. Do your banking early in the day. Pay small bills by cash instead of cheque wherever possible. It all helps.

The CHARTERED BANKS OF CANADA

## War City Wartime London Described By Canadian News Writer

By Walter R. Legge

We arrived in London late in the evening after an all-day train journey. There was no moon that night. London in the black-out is really black. There were Army automobiles to meet us and we had a sudden and complete introduction to being driven through the blackness at what seemed to us to be about thirty miles an hour, and on the wrong side of the street.

Our car narrowly missed a pedestrian who was courting death by dodging across the street in the middle of a block. If he had been hit, it looked to us as if he would have been entirely at fault, but our guide said that in such a case the chauffeur would be "Jock," which is army parlance is the fellow who gets all the blame.

London in the daytime is just as strange to us. On the streets are men and women in uniform from all parts of the world, "S" signs on nearly every corner pointing the way to shelters, other signs showing where there are tanks of static water, shelters built in the streets, closed stores, store windows boarded over except for small lights of glass, and, if there were anything else needed to show that we are in the war zone, we could look up and see countless balloons in the sky.

The barrage balloons, which look something like huge fish, are a silvery color that blends with the sky, so that they are hard to see at any distance, but, in spite of that, one could often count forty or more. The static water is for use in fighting fires in case the water mains are destroyed or are inadequate. In many cases the basements of buildings that have been demolished are cleaned out, cemented and filled with water.

The number of stores that are closed is astonishing. Most store windows have been broken by concussion even when the buildings have not been hit, and there would not be enough glass to replace them, even if it were safe to do so. There fore the windows have been closed up, leaving only small panes of glass three or four feet square in the centre.

The acute shortage of labor is apparent in many things, as, for instance, in the elevator services or "lifts," as they are known there. People are expected always to walk downstairs, and to walk up if not more than three stories.

No one is supposed to have more than one bath a week, and then to have only five inches of water in the tub. The hotels no longer give a full service for laundry, and one must allow several days before expecting its return. Debris from bomb damage has been well cleaned up, but little or no attempt has been made to rebuild. Plans for a finer and more beautiful London still exist only on paper.

Transportation is much better than we expected. Taxis are under severe restrictions as to gas and speed, but it is possible to get away when required with a little delay. The principal method of the London is to take the underground or a bus, and there are plenty of the latter. They are of the double deck type. People queue up for them in a very orderly manner, which is a tremendous improvement

more of his time to his mayoralty duties. He expressed his full intention of finishing the 1943 term as Vernon's chief executive.

### VERNON MAYOR RETIRES FROM BUSINESS

T. E. Yuill Takes Over Hardware Firm in Vernon—Was With Mc & Mc

After being in the hardware business in Vernon for exactly twenty years, A. C. Wilde, Mayor of Vernon, transferred his business on Saturday, March 6, to T. E. Yuill, formerly of McLennan, McFeeley and Prior (Vernon) Limited, known for many years as the Vernon Hardware Limited.

The erstwhile firm of Fletcher-Wilde Hardware Limited will now be known as Yuill's Hardware, Mr. Yuill having bought out Mr. Wilde. The new owner has a life-time experience in the hardware business.

Mr. Wilde has been with J. H. Ashdown Hardware Co. Limited on the prairie for a number of years, and before coming to Vernon eleven years ago, had been in Vancouver and Victoria in the same line.

Mr. Fletcher was associated with Mr. Wilde for three months only when the business was first taken over by them in 1923. Originally belonging to the late W. R. Megaw, the Hudson's Bay Company took over the hardware section, which was later bought by Galbraith & Speer. This firm afterwards dissolved, Mr. Galbraith staying with the implements, and what was for a short time Speer's Hardware was later known as the Okanagan Hardware.

Fletcher-Wilde Hardware Limited entered into the picture at this time, being located in those days at the upper end of Barnard Avenue, Vernon.

Asked as to his intentions, Mayor Wilde said he was going to wind up his business affairs, and devote

more of his time to his mayoralty duties. He expressed his full intention of finishing the 1943 term as Vernon's chief executive.

### NARAMATA CO-OP WILL REBUILD ON NEW SITE

New Packing Plant and Cold Storage Behind Syndica House is Approved

Members of the Naramata Co-operative Growers' Exchange, at a meeting held in the Naramata Unity Club recently, voted to replace their packing house and cold storage plant, destroyed by fire last January 21, with a structure costing about \$94,000, to be located in the square block behind the Syndica house.

The plant would be large enough to accommodate the tonnage of the present members of the exchange. The decision, which was carried by a 30 to 10 margin, came after the meeting heard four separate proposals placed before it for consideration.

The first two proposals included the possibility of amalgamation with the O.K. Packers Co-operative, the Hudson's Bay Company and the building large enough to handle all the tonnage in the district. The first of these proposals suggested that new structures be constructed on the former site and lotted out to the members of the O.K. Packers. The latter proposal would be bought by the exchange at a price of \$12,500.

The second suggestion was that the new building, big enough to handle the district tonnage, be erected on the property behind the Syndica house.

The idea of amalgamating with the O.K. Packers did not find favor with the exchange growers, although the members of the former organization some time ago expressed their approval of the union.

The last two suggestions, submitted to last week's meeting, dealt with reconstruction of a plant large enough to handle the exchange tonnage.

The first called for the new building to be erected on the old site, and the second suggested its construction on the property behind the Syndica house. The latter alternative was adopted by the meeting.

### High Pay

A member of the British Parliament was showing an American senator-major around the House of Commons recently. He asked him about the army pay. Afterwards, the M.P. raised a laugh in the House when he revealed the S.M. told him that he got "more than a member of Parliament." "I am not saying," added the Englishman drily, "that this shows a wrong valuation."

## PENTICTON EMPLOYEES ASK BONUS

Additions Requested Will Mean Eight Thousand Dollar Increase in Budget

The Penticton Municipal Council is faced with substantial addition to the budget if cost of living bonuses and other increases, asked by municipal employees, are granted. Total increase will approximate \$8,000 and will probably entail a rise in the mill rate to meet the additional expense of operation, it is stated.

The cost of living bonus, if paid on the August, 1939, basis, would amount to about \$18 per month. It was explained. This is being asked in addition to raises in the basic salaries and wages, and would affect all employees, either on hourly or monthly pay.

A wage and salary policy was agreed on last year, involving raises over the previous year. In addition, the Council is willing to pay the cost of living bonus on the 80 cents a week basis. But it will not consent to further large-scale increases. Voluntarily, it raised the rate of casual workers from 45 to 50 cents per hour.

Further requests in other respects have also been made. The employees are asking time and a half payment for overtime, that is over 44 hours a week, and double time on Sundays and statutory holidays. This would apply to all employees, in the office or outside, on monthly wages, on hourly pay, etc. The Council has been paying overtime to hourly people on the 44-hour week basis, but not to the monthly employees who are mostly engaged in office duties.

A request has also been made for sick pay. The employees want three weeks on full time, a further three weeks on half pay, and further concessions would be at the discretion of the Council. The latter do not want to make any specifications for sick pay, reserving the right, as in the past, to deal with individual cases. The electrical employees, as a separate group, have asked for a month's sick pay.

Since the Council has now become an "employer" under the National War Labor Board, the employees will come under the unemployment insurance provisions, it is reported. This will mean a further cost of about \$1,000 annually as the Council's share in costs, with the employees also paying their share.

### More About 1 R.P.M.

From page 2, column 5 have given Syria and Lebanon for full independence. . . . Another member of the Fighting French household was a handsome French soldier who had recently escaped from a German prison camp; masqueraded as a German collaborator for some time, under false passports

THE DEPARTMENT OF MUNITIONS AND SUPPLY  
Honourable C. D. Howe, Minister

W.F. 1

## EMPLOYMENT...OF THE PEOPLE...BY THE PEOPLE

FRED: "What's that you say? Life insurance savings pay a lot of wages? Whose wages?"

FRANK: "Might even be ours. You don't suppose they keep it hoarded away in a big gold pile, do you? No, they finance jobs like this all over the country."

THE premiums your Uncle John has paid to protect the future of Aunt Jane and the kiddies, may have rolled back into your pocket. Perhaps you're working on the construction of a munition plant, or on new housing for munition workers. If so, the chances are that part of your wages have been paid out of savings your neighbours have put into life insurance.

In peace time these savings may have built the school you used to go to, or the hospital where your baby was born. Certainly they helped develop the electricity which cooks your Sunday dinner. The paper you read, the street car you ride on, even the coins you spend, are at your service partly because of insurance investments in Canada's forests, mines and factories.

Four million of you insurance owners keep a lot of money circulating through the country. Your savings, great or small, ranging all the way up from a few dollars a month, have made life insurance a great business democracy. You people own the assets . . . over two billions of dollars . . . always on call when you or your dependents need help or protection, and yet always circulating to make more jobs for more people. And since, today, victory is everybody's business, your life insurance companies are investing every dollar they can of your savings in Victory Bonds. They help to pay workers who are making the tools of victory.

### HIGH SPOTS

of Kelowna Senior High  
School News

Students of the Kelowna High School put on the second indoor track meet in the gym on Friday, February 26.

The meet was not as successful in attendance as the first one, but the three teams, Red, Green and Blue, put out strong squads in all events to try to stop the powerful White House, which ran off with the honors by taking the shield.

The K.H.S. basketball five bowed to a strong Fenelon team, Friday, March 5, in the Scott Hall, to the score of 84-48. This game was the second of a two-game series for the

### FARM MACHINERY

Even the person living in a city apartment is indirectly interested in the fact that it takes farm machinery to produce the necessities of life. Administrator H. H. Bloom had some of the answers for me in Toronto. First, let me pass on the fact that our tentative allocation for 1943 is 25 per cent of the 1940 tonnage for farm machinery and 150 per cent for repairs. That's not as bad as it sounds when one considers that the Russians found it possible to produce materials in factories six months after they had been blasted to rubble by the Nazis, and relearned that takes ingenuity and improvisation. The Canadian farmer can do that, too.

Why is 1940 taken as the basis? Because that was the last normal year in the implement business, and the period used by the United States also, from whence we have some dependence for materials. Things weren't so serious in this line in 1942, for when the smoke had cleared away a healthy business showed a statistical reality. Between implements and repairs, we had a 96 per cent over-all tonnage manufactured or imported.

Why Materials Are Scarce  
But there's a different picture for 1943; shelves are bare and no inventory exists. You can't get the farm in the towns, have got to get it into our noodies that materials which go into farm machinery also go into the machinery for killing Nazis and Japs.

As the administrator explained it, and it sounded reasonable, it would have been simple to make an order stopping importation of not more than 25 per cent gross weight. But there were other considerations. For one thing, they curtailed exports drastically. Yes, they have to export a certain amount yet—to Australia and New Zealand, who have some basis of argument that they are dependent on us in that they also have to produce the food to keep them alive. Just like our own city apartment dweller, they are interested in machinery.

Then the Administration made a survey clear across Canada, discussing the situation with deputy ministers of agriculture, experimental station superintendents, the Supply Board and other top level men. Varieties were most essential. That's a good approach, isn't it?

In Western Canada, for instance, they found they could do without threshers more, and they wanted combines increased; they could cut out drag harrows for a year but wanted one-way discs. As a result, they were able to order varieties eliminated in the West from 473 to 73; that may be 117 in Eastern Canada. Walking plows, as an example, will come in only five kinds as compared to 52.

1943 Compared To 1940  
And here is another practical application of the survey. They will allow manufacture of 75 per cent of 1940 output of cream separators.

## SAVE FATS AND OILS FOR WAR INDUSTRY

Two Ounces A Week Asked  
From Canadian Housewives

The lives of the United Nations' soldiers, airmen and sailors mostly depend upon the speedy response to this S.O.S.

Fats and oils are the raw materials from which glycerine is produced. Glycerine is the basic and indispensable ingredient in the majority of our explosives.

If every one in Canada saves as little as two ounces of waste cooking fat in a week, it will produce the glycerine required for the gun powder to smash Adolph, Benito and Tojo. There is enough explosive hidden in ten pounds of waste fat to fire forty-nine anti-aircraft shells.

In the past we have received most of our fat requirements from the Far Eastern sources, now cut off by the Japs—coconut oil and copra from the Philippines, palm oil from the Dutch East Indies and Malaya, tung oil from China, perilla oil from Manchuria and Japan. As in so many other materials problems, this loss of our normal sources of supply of fats and oils is vitally important to our war efforts and economy.

Our problem is to replace all of this loss. It is being replaced partly by some imports from our good friends in Central and South America, but the biggest source of all has never been fully tapped. That source is in our own kitchens. This Canada-wide campaign depends almost entirely on the home front—the continued efforts of every one in Canada. This is a challenge to every Canadian housewife, restaurateur and hotel owner, for it is their job to see that this fat is saved out of Canada's frying-pans and broilers. From the dripping of steaks and chops, beef and pork and lamb roasts, chicken and turkey ducks and geese, must come fat for glycerine so urgently needed to make explosives for shells and bombs and depth charges to win the war—and that adds up to deadly proportions for Hitler & Co.

Individually, we may look at the small amount we are able to save daily from dripping and from other sources, and we may decide that it hardly seems worthwhile. Let us all remember that, if every person in Canada saves as little as two ounces of waste fat in a week, it will be an adequate answer to this national war effort and appeal. Saving waste fats is one of the simplest war aids asked by your country, and it is one of the most important ones on the home front, so join the ranks of the kitchen commandos. Your uniform may be only a plain apron, but it can be as gallant an

with combines down to 33 per cent, but still, like the Russian simile quoted above, satisfactory. Grain drills for the West will be on the basis of 15 per cent of 1940 but 30 per cent for Eastern Canada; the West will get 33½ per cent one-way disc seeders and Eastern Canada nil. The tonnage was computed separately for East and West as essentiality required.

The Administration knows there will be a biggest demand for farm machinery this year because, generally speaking, there was a better income in 1942 and farmers will want increased and better plant facilities. Labor will be scarce, so then what better than a rationing system?

"We studied the British system and that of the United States, guide us, if possible," said Mr. Bloom. Out of the cumulative study and research, they evolved what they consider the most simple and the least expensive way to work out the farm machinery and equipment problem, which is nationally important in scope.

Here it is in a nutshell, just as easy for the city slicker to understand as for the farmer. In the regional boards across Canada, fourteen machinery rationing officers have been appointed. Acting as a consultant in each case without additional remuneration is an agricultural representative. He might be the superintendent of an experimental station or one qualified and delegated by him to assist. As a further consultant to the rationing officer, some prominent farmer of the region is chosen who has the confidence and respect of the others. His judgment is used in dealing with "border line" cases because—as we neglected to mention earlier—the individual farmer can make application to the rationing officer for farm machinery he thinks he essentially requires. The mechanism for appeals is also provided for.

Problems Well Understood  
Well, that's the story I got from the boss of farm machinery, boiled down to the space available. They realize the labor shortage presents difficulties. They are sympathetic to the fact that a farmer can't get everything he wants for replacement or new equipment. But they're making every effort to be fair and equitable to all with the amount at the disposal of the country as a whole. That means harder work, taking care of present equipment to make it last longer.

The farmer likes to grouse just as the soldier does, but they both give up when it's needed. Because there's a serious war going on, the farmer will, we think, without hesitation, do the best he can to make machinery go around to the best advantage. The comparative rationing has been set up because there is a scarcity of materials and the necessities of war production. We've just got to like it and make what we've got last longer.

## SEINERS ARE BUILT UNDER GOV. SUBSIDY

Thirteen Large Fish Packers  
Will Help in Supplying Food  
For Britain

Thirteen large fishing boats, capable of carrying ten to fifteen hundred pounds of fish, are being built on the Pacific Coast, under the Dominion Government fishing boat subsidy. Fisheries Department officials have stated. Five of these are completed now.

These vessels are of the packer-seiner type and have been subsidized to the extent of between \$95,000 and \$100,000. Cost of each vessel is between \$48,000 and \$53,000, the subsidy covering the difference between pre-war and wartime cost of building and outfitting.

The ships are between seventy-two and seventy-eight feet in length and have a displacement of between ninety and 110 gross tons.

Last year the budget allowed \$278,000 for these subsidies. The amount this year has been increased to \$500,000 to include both the Pacific zone and dragger-type vessels for the Atlantic.

The greater part of British Columbia's fish production goes to the United Kingdom and the armed forces. Last year from the Pacific alone 1,806,000 cases of salmon were shipped, and between October, 1942, and March, 1943, around 53,000,000 pounds of canned herring went to the British Isles.

The scheme had not been as successful in the Atlantic as the Pacific, the department stated, due to difficulty in getting engines for the boats from the United States.

### FREIGHT GOES RED

The new 40-ton all-steel freight cars of the Canadian National Railways are decorated with a maple leaf and the words "Serves All Canada." The conventional box car has been retained and the red has been extended to trucks, wheels and all underlugging equipment previously painted black. The maple leaf stands out in white. The C.N.R. has 1,100 of these cars on order.

outfit as the togs and helmet of the bombardiers in a Flying Fortress. Waste Fats and Bones Are Needed Viciously in getting engines for the boats from the United States.

1. Take fats and bones to your meat dealer, who will pay you the established price.

2. You can donate your fats and bones to your local Voluntary Salvage Committees in any place they may collect them.

3. You can continue to place out on the home front, so join the ranks of the kitchen commandos, where such a system of collection is in existence.

## SELECTIVE BOARD REVISED BY OTTAWA ORDER

Inter-Departmental Committee  
of Selective Service Abolished—New Members Appointed as Advisors

OTTAWA.—Labor Minister Mitchell has announced that the National Selective Service Advisory Board has been reconstituted by Order-in-Council, and Selective Service Director Arthur MacNamara will be chairman of the new Board.

Its membership has been selected, Mr. Mitchell said, to give representation to organized labor, employers, veterans, farmers and Government departments interested in manpower problems.

Previously, the Board consisted of members of the Inter-Departmental Committee on Labor Co-ordination and members of the National Labor Board, together with other members designated by the Minister of Labor.

Reorganization of the National War Labor Board and incorporation of National Selective Service into the Department of Labor have made the present change necessary, Mr. Mitchell said.

Members of the new Board follow: Representing Labor: E. Ingles, London, Ont., of the International Brotherhood of Electrical Workers; A. R. Mosher, Ottawa, Canadian Congress of Labor; Gerald Estant, Quebec, Confederation of Catholic Workers of Canada; J. A. Bell, Toronto, Order of Railroad Telegraphers; W. Dunn, Toronto, Toronto District Labor Council.

Employers: A. Deschamps, Montreal, Builders' Exchange; George Hodge, Canadian Pacific Railway, Montreal; Gilbert Jackson, Sentinel Securities of Canada, Ltd.; Ivor Lewis, T. Eaton Company, Ltd.; H. Taylor, Canadian National Carbon Company, Ltd., all of Toronto.

Agriculture: P. D. MacArthur, Hawick, Quebec.

Veterans: J. C. G. Herwig, Ottawa, Canadian Legion.

Government Departments: Donald Gordon, Prices Board Chairman; Dr. G. S. H. Barton, Deputy Minister of Agriculture; Lt.-Col. G. S. Currie, Deputy Minister of Defence; W. A. Macintosh, special assistant to the Deputy Minister of Finance; H. Carl Goldenberg, Director-General of Economics and Statistics, Department of Munitions; Mrs. Rex Eaton, Assistant Director of Selective Service, Women's Division; Paul Goulet, C. F. Needham and A. E. Pequegnat, Associate Directors of Selective Service (Civilian); Maj.-Gen. H. J. Riley, Maj.-Gen. T. L. Tremblay, Associate Directors of Selective Service (Mobilization).

The Board secretary will be W. J. Couper, special assistant to the Deputy Minister of Labor.

The Board is charged with "advising the Director of National Selective Service with reference to the utilization of manpower in the prosecution of the war and the administration and enforcement of these (i.e. National Selective Service, Civilian) regulations."

The previous Inter-Departmental

Committee on Labor Co-ordination will now cease to exist.

Walter: "What about a chop, sir?"  
Traveller: "I never eat chops."  
Walter: "In that case, sir, dinner is over."

### STORE ENLARGED

Harry Mitchell has completed alterations to his men's wear store which afford facilities for service to customers.

The premises have been enlarged by extending the display space at the rear of the store, and patrons will find added space in choosing their spring needs from the extensive stock of clothing and men's accessories displayed in the newly decorated shop.

**150,000 RAILWAY WORKERS  
REPORT  
TO CANADA AT WAR!**

Last year, we hauled 150 million tons of materials, foods and munitions... double the pre-war traffic.

We carried Twenty Million NEW passengers... fighting men and war workers.

We built tanks, guns, shells, ships.

Twenty-two thousand of us were with the armed forces of our country.

Now, we are busier than ever providing the mass transportation that only the railways can furnish.

The country depends upon us to do this job. We must move the troops. We must handle freight. And, with your cooperation, it will be done.

<b>TOTAL ASSETS TO MEET OBLIGATIONS</b>			<b>\$5,994,915,576.58</b>

### SURPLUS FUNDS \$382,069,190.46

The Company holds total assets which exceed the total of its obligations by \$382,069,190.46, for the purpose of giving added assurance that all benefits to policyholders and beneficiaries will be paid in full as they fall due. This amount is composed of

**Special Surplus Funds . . . \$12,300,000.00**

**Unassigned Funds (Surplus) . . . \$369,769,190.46**

and serves as a margin of safety against possible unfavourable experience, whether due to war or other conditions.

NOTE.—Assets carried at \$271,804,055.40 in the above statement are deposited with various public officials under requirements of law or regulatory authority. Canadian business ended in this statement is reported on the basis of par of exchange.

Life Insurance in Force, End of 1942 . . . \$26,867,676,154

Paid-for Life Insurance Issued During 1942 . . . \$2,051,013,903

Amount Paid to Policyholders During 1942 . . . \$533,624,637.04

### HIGHLIGHTS OF 1942 OPERATIONS IN CANADA

These highlights of the Company's business in the Dominion during 1942 will be of particular interest to Metropolitan Canadian policyholders and their beneficiaries.

#### Investments in Canada:

Dominion Government Bonds	\$132,810,424.99
Provincial and Municipal Bonds	92,268,974.32
All other investments	104,000,070.81
	<b>\$329,079,470.12</b>

Included in the above figures are Victory and War Loan investments of \$68,000,000.

Payments to Canadian Policyholders and their beneficiaries during 1942—\$26,897,409.49.

#### Life Insurance in Force in Canada, end of 1942:

Ordinary	\$790,359,074
Industrial	482,800,803
Group	130,077,666
	<b>\$1,403,237,543</b>

Number of policies in force in Canada, end of 1942—2,783,201.

Paid-for Life Insurance Issued in Canada during 1942—\$157,022,928.

The total amount the Metropolitan has paid to Canadians since it entered Canada in 1872, plus the amount now invested here, exceeds the total premiums received from Canadians by more than \$199,750,000.

## MAN'S WORLD

Joe Casorso and S. Gustafson have returned from a visit to Halycon Hot Springs.

George Ellis returned last week from Fort St. John, where he had spent the past month on a business trip.

Dr. D. M. Black returned last week from a month's holiday spent at the Coast.

George A. Meikle has returned from Vancouver, where he visited his son, L.A.C. Wallace Meikle, R.C.A.F., who was on leave from his station at Uluet Bay, Vancouver Island.

Judge J. R. Archibald, Kamloops, was a visitor in Kelowna this week.

H. Gunderson, Kamloops, was a business visitor in Kelowna this week.

S. M. Simpson left for Ottawa on Friday last to attend a conference with A. H. Williamson, Federal Timber Controller.

## HITHER AND YON

Miss Jennie Ritchie left on Tuesday for Vancouver on a business trip. Later she will visit friends in Seattle for a short time.

Mr. and Mrs. C. E. Emery have returned to Kelowna from a holiday spent at the latter's home in Penticton.

Mr. and Mrs. Crete Shirreff have returned from a holiday spent at the Coast.

Miss Rosemary King was a tea hostess last week when she entertained friends at the Royal Anne Hotel, honoring Mrs. J. B. Stark, Nelson.

Mrs. Harold Pettman returned last week from a holiday spent at the Coast.

Mrs. A. S. C. Graham, Toronto, formerly of Kelowna, who had been the guest of Mr. Charles Robertson, Bunkhead, for the past two weeks, has returned to her home. While here Mrs. Graham was entertained by many of her old friends.

Mr. and Mrs. Wm. Whiteway have returned from the Coast, where they had spent the past few weeks, due to the former's ill health.

Mrs. Gordon Finch entertained at the tea hour on Saturday afternoon at her home on Riverside Avenue, honoring her sister, Mrs. Stark, Nelson.

Mrs. Hugh Horne returned on Sunday from Vancouver, where she had been holidaying for the past few weeks.

An executive meeting of the Aquatic Auxiliary was held at the home of Miss Audrey Hughes, on Pender Street, last Thursday evening, when plans were discussed for the forthcoming season's activities. A general meeting of the Auxiliary will be called within the next few weeks. Watch this paper for the announcement.

Mr. and Mrs. E. McDougall and little daughter, Betty, expect to leave either tonight, Thursday, or Friday for their new home in Wells, B.C. Charles Collins, formerly of the Royal Bank, Vancouver, has arrived in Kelowna to replace Mr. McDougall. Mrs. Collins and her two children will arrive in Kelowna in the near future.

Miss Patricia Martin, Winnipeg, is a guest of the Royal Anne Hotel.

Mrs. E. E. Eddy, Peachland, was a visitor in Kelowna for several days this week, a guest of the Royal Anne Hotel.

Mrs. Ivan H. Martin, Abbott Street, had as her guests over the week-end Capt. and Mrs. W. Nutter and Col. F. Scott, Vernon. Mrs. Martin entertained friends on Saturday and Sunday in honor of her house guests.

Mrs. T. C. McLaren, Toronto, is visiting her daughter, Mrs. Ivan H. Martin, Abbott Street.

Mrs. W. M. Bostock, Vancouver, was a visitor in Kelowna during the past week, a guest of the Royal Anne Hotel.

Mrs. A. G. Shelley has returned to Kelowna after spending three weeks as a patient in the Royal Inland Hospital, Kamloops.

Friends of Miss Doris Farrow held a surprise party in her honor on Tuesday evening at the home of Mrs. J. Harris, Glenn Avenue, prior to her departure to join the R.C.A.F. (W.D.). Miss Farrow was presented with a lovely Air Force writing case on behalf of her assembled friends.

Mr. and Mrs. P. E. Ritchie, Vancouver, are visitors in Kelowna this week, guests of the Royal Anne Hotel.

## KELOWNA GIRL WEDS AT COAST

Miss Pearl Marguerite Swordy Married to Sigard Olaf Olson

The wedding took place on Saturday evening, March 13th, at the home of Rev. Norbeck, Vancouver, at 7:30 o'clock, when Pearl Marguerite, daughter of Mr. and Mrs. Thomas Swordy, became the bride of Sigard Olaf Olson, eldest son of Mr. and Mrs. Andrew Olson, Jeffrey, B.C.

The bride chose a turquoise dress with navy accessories, and wore a corsage of baby orchids. She was attended by two of her sisters, Mrs. Alice Akhurst and Miss Helen Sworndal. The groomsmen were Richard Edlund.

After the ceremony, a reception was held at the home of the bride's sister, Mrs. Akhurst, when a buffet supper was served.

Mr. and Mrs. Olson will reside in Vancouver.

## EAST KELOWNA

Films of the National Film Board were shown in the Hall on March 9th. There was quite a good attendance, and the films were very interesting. The discussion group held a meeting following the show.

Harold Perry had the misfortune to cut his foot and is unable to get about for a few days.

The whist drive held on Friday night was very well attended. The lucky winners were Miss Ivy Rogers and Roy Day.

A.W.I. Nora Perry, R.C.A.F. (W.D.), is home to spend her furlough with her parents, Mr. and Mrs. H. Perry.

Mr. and Mrs. Edwin Hewlett are receiving congratulations on the birth of a daughter, born on March 13 at the Kelowna General Hospital.

Mrs. H. Handlen, from Vancouver, is visiting her mother, Mrs. E. Tasker. Her husband recently went overseas.

P.C.M.R. (3A Detachment) The next parade will be held in the Hall on Thursday, March 18, at 8 p.m.

A. M. THOMPSON, Detachment Commander.

## OKAN. CENTRE INSTITUTE PLANS GARDENS

School Children Will Plant Vegetables This Year Instead of Flowers For Competition

The March meeting of the Okanagan Centre Women's Institute was held on Thursday last, at the Community Hall, with a fair attendance. Among other items on the agenda was an appeal from the Women's Auxiliary of the Kelowna Hospital for assistance, for which a small sum was voted.

A round table discussion on gardening for Victory focused on the use of soy beans for the table and methods of planting the various vegetables.

Plans were made whereby the Institute will provide judging team and prizes for early vegetable gardens made by the school children under the supervision of the teacher, Miss Mary Watt. In previous years the competitive gardens have been of the flower variety.

An hour was spent by the members in making a set of flags for 20 tables of military whist, after which tasty refreshments were served by the hostesses, Mrs. Bernau and Mrs. Thompson.

It was announced that the April meeting will be addressed by Mrs. Campbell-Brown on the needs of China.

Mr. and Mrs. Woolridge and family, which includes a grown son and nephew, arrived at the Centre recently from Saskatchewan and are in residence at a tenant house on the S. Copeland ranch, where Mr. Woolridge is employed. The son and nephew are employed on other orchards in the neighborhood.

Miss Harrop, of the office of the Okanagan Valley Land Co., is spending a vacation in Vancouver.

Mrs. H. Macfarlane returned on Saturday from an extended visit in Fort William.

H. A. Howard, of Calgary, President of the Okanagan Valley Land Co., and D. Marshall, of Summerland, Manager of the same company, were on a business visit to the Centre on Wednesday. While here they were the guests of Mr. and Mrs. Van Ackeren.

## VIOLET PARK BECOMES BRIDE OF C. FAWCETT

Pretty Wedding is Celebrated at Evangel Tabernacle

A very pretty wedding ceremony took place on Thursday afternoon, March 11th, at the Evangel Tabernacle, at 3:30 o'clock, when Violet (Babs) Park became the bride of Clifford Fawcett, of Kelowna.

Rev. P. S. Jones and Rev. John Peel, Vernon, officiated. The bride, who was given in marriage by her brother, George Park, chose a becoming floor length frock of white sheer with her finger-dip veil held in place by orange blossoms, and carried a bridal bouquet of Talisman roses and white carnations.

The groom's sister, Miss Florence Fawcett, was the bridesmaid, and she wore a gown of cocktail blue sheer with lace insertions and carried a bouquet of pink and white carnations.

Eldor Prochneau was the groomsmen. Following the ceremony a reception was held at the home of Rev. and Mrs. P. S. Jones, Bertram Street.

After a honeymoon spent on Vancouver Island, Mr. and Mrs. Fawcett will reside in Kelowna.

## U.B.C. ALUMNI ASK DONATIONS

Flying Officer George Pringle Memorial Fund Asks Support

A meeting of the U.B.C. Alumni of Kelowna was held recently to discuss the spontaneous demand which has developed to perpetuate the name of the late Flying Officer George Pringle in some suitable manner.

The idea is to raise \$6,500, which will provide a perpetual annual

## RATION NEWS

### Butter Coupons

Butter Coupon No. 1 in your new Ration Book was valid on March 10th and is good in consumers' hand until April 30th. Butter Coupon No. 2 becomes valid March 20th and is also good in consumers' hands until April 30th.

### Sugar, Tea & Coffee

You now have two Ration Books—your old one and the new one. After March 31st none of the Sugar, or Tea or Coffee coupons in the old book will be honoured. After that date your old Ration Book should be destroyed. Dates when Sugar, Tea and Coffee coupons in No. 2 Book become good are plainly marked on the back of each coupon.

### Canning Guide

Every woman should have a Canning Guide. These were delivered to all homes by post.

This column will appear in this newspaper every week to keep you up-to-date on Ration News. Clip and keep for reference.

### RATION ADMINISTRATION

THE WARTIME PRICES AND TRADE BOARD

men and if you have not received a copy, get one from the Ration Administration. You cannot properly fill in your "Application for Canning Sugar" without one of these Canning Guides.

### Sugar for Canning

In your Ration Book No. 2 is an "Application for Canning Sugar." It is every Canadian housewife's duty to make a thorough study of the Canning Guide before completing this Application. Study the instructions carefully and, when filled in, send it to your Local Ration Board not later than April 15th.

### No. 2 Ration Book

Before you destroy your old book see that the letters and the number shown on the front of the old book are exactly the same as have been written on your new book. If there is any difference in the letters or the figures send both books to the nearest Ration Office at once.

Rev. Dr. W. W. McPherson has also been authorized to collect donations from this district.

## CONSTRUCTION MAN HERE FRI.

Mr. Leckey, of the B. C. Construction Control Advisory Committee, will be in Kelowna on Friday, March 19. This information is of special interest to contractors who may have problems which they desire to discuss with him. Any appointments should be made through E. W. Barton, secretary of the Kelowna Board of Trade.

## CORNER HEADS ROTARY CLUB

R. Corner was elected as the new president of the Kelowna Rotary Club on Tuesday. Mr. Corner for many years has been one of the active members of the club, and on previous occasions has been forced to refuse the honor of the presidency due to ill-health. He will assume his new duties at the end of June.

Next week the club will elect its directors for the coming year. Yachts have been used in Great Britain and Holland since the 17th century.

## FOOD COMMITTEE HAS PRACTICAL PROGRAM

Kelowna Housewives Will Get Commonsense Advice On Food Preparation

Dr. J. M. Hershey reports that the committee on food habits is meeting regularly and has completed plans for the house-to-house delivery of special food bulletins.

These bulletins are the first step toward a practical, down-to-earth program aimed at telling and showing housewives how to serve properly balanced meals to their families at a reasonable cost.

Dietetic theory is all right in its place, Dr. Hershey states, but any series of food rules or food programs must be based on the production and economic standard of the community.

Foods suggested for use in wartime meals must be available and must be priced low enough so that the average family can purchase these products.

The committee proposes to carry out suggestions as to future policy made by housewives after they have studied the bulletins which stress the importance of proper food habits in national health.

The program will probably include courses in preparation of meals and home canning, with practical work replacing lectures as much as possible.

The importance of home "victory gardens" will be stressed, and the committee hopes to develop this phase of its work in conjunction with the Kelowna Board of Trade and City Council.

Conferences have so far been ironed out many impractical suggestions made by government diet specialists who have laid down rules drawn for Canada as a whole, many of which are not suited to conditions here, Dr. Hershey states.

Housewives can be assured that the suggestions made will all be of a practical nature and ones that will be of value to the family's health. The program, a program that will work in the everyday life of the average Kelowna citizen.

## CITY CLERK GETS LEAVE OF ABSENCE

City Clerk G. H. Dunn has been given leave of absence by the City Council to attend the annual meeting of the Municipal Officers' Association at the Coast.

During his absence for a few days early in April the duties of acting City Clerk will be discharged by F. T. Dunn, Assessor and Collector.

When you buy Life Insurance today you help to build the strength of Canada in several different ways.

You help finance the defence programme, because a large portion of the money that you deposit goes into War and Government bonds.

Also you are INVESTING your money and not spending it. A strong factor in combating inflationary tendencies.

In helping you work out a personal defence programme, the Mutual Life representative strives first to understand your problems, and, understanding them, utilizes his experience and training in tailoring insurance to meet them.

## Squadron Leader Parks Heard In Magnificent Address At Junior High School Last Tuesday Night

Toronto Minister Paints Vivid Word Picture of Air Force Life in Great Britain—Comradeship is Outstanding Characteristic of Canadian Air Crews—Have Developed Tough, Hard Shell Covering Real Feelings—Must Assure Their Sacrifice Is Not In Vain

"THE crew climb into their bomber and go off into the dark with a smile on their faces and a quip on their lips. Shed no tears for them but for us who sent them there."

In these words Squadron Leader Parks, minister of High Park Church in Toronto and special observer for Air Force Headquarters, summed up his address at the Junior High School last Tuesday night. Those who were fortunate enough to hear the speaker sat enthralled as he painted a vivid and moving word picture of the men and women of the R.C.A.F. overseas.

Squadron Leader Parks is an one meets them he finds on the sur- trianman with still a trace of the face a tough lot of youngsters who brogue in his voice, and he has in live a day at a time and whose per- full measure the oratorical ability spective is limited by that fact.

"They live in a world of their own," he stated, "a world of men whose comradeship is the outstanding characteristic. It is a beautiful thing, entirely lacking in selfishness or other mundane qualities of everyday business life."

"Underneath the veneer of fatalism is a keen appreciation of life's realism and one thing above all is stressed by all. These lads don't take time to worry about their own future. They know that the cards are stacked against them and that probably they won't come back, but they all ask that their sacrifice be not in vain. They don't ask that they be spared but they do ask that we see that a better world results from what they are giving."

"Shed no tears for them," he said, "but for those of us who sent them. Let us make sure that never again will the finest of our youth be lost to Canada. What they are doing is a challenge to every one of us to see that the future generations do not have to throw away their young lives. Let us make certain that never again will a government be able to say that there is no money when thousands are starving and then produce millions overnight for war."

More About 3 FATS AND BONES

From page 1, column 5

the way, the principal one being how to handle the fats and bones during wet weather.

In Ottawa, late in February, so important was this salvage effort considered by the Government that General L. R. LaFleche, Minister of National War Services, sought the assistance of the Canadian Weekly Newspapers Association in putting across the campaign in the rural areas of Canada.

At the meeting, Charles LaFleche, Director of National Salvage, told the C.W.N.A. directors that the campaign was running smoothly in most small towns of Canada and that the butchers had extended enthusiastic co-operation.

Mr. LaFleche explained that Canada needed urgently the 35,000,000 pounds of fat it expects to collect each year through the fats and bones campaign. This would appear to be a lot of fat, but actually it amounts to only about one ounce per person per week.

The campaign is not another brief effort with a spurt for a few days and then dropped. The campaign must be sustained right across Canada, in every household, in every hotel and restaurant, from day to day, from week to week, and from month to month.

Housewives are the key to the collection. They are asked to take their fats and bones to their meat dealer. The meat dealers, as their contribution to the war effort, have undertaken to accept salvaged fats and bones and to see that they are forwarded to the renderers and meat packers for the recovery of the vital glycerine for explosives and other materials essential for war industries.

Arrangements, Mr. LaFleche stated, have been made with the meat dealers to pay the housewives for the fat they turn in.

For every pound of rendered drippings in tin cans the meat dealer is authorized to pay the housewife four cents. For every pound of household scrap fat the meat dealer pays one cent to the housewife. There is no cash payment for the bones turned in.

The meat dealer, in turn, receives these prices plus an additional cent a pound from the renderers or meat packer. He also receives twenty-five cents per hundred pounds for the bones. These prices are to recompense him in a small measure for his trouble. The meat dealer makes his shipments f.o.b.

In a letter to The Kelowna Courier on March 12, Mr. LaFleche's office reviewed the above facts and stated:

"I am enclosing for your information... Nov. 30th bulletin to meat dealers giving information about the campaign. Further, packing and rendering firms have written letters to meat dealers explaining how they can ship fats and bones to them, collect, and what prices will be paid for the same."

"It is somewhat difficult to see what real difficulties face Kelowna butchers as to collection of fats and bones. All they have to do is to collect 100 pounds of such material and then ship it, collect, to the nearest renderer or packer of their choice in Vancouver. The Kelowna butchers can pool their collections so that it should not be unduly long to collect 100 pounds. Heavy cartons can be used for the shipments of fats and bones, the same as in other centres throughout Canada."

"I am sure if Kelowna butchers work together in support of the campaign and shipments, the campaign should be successful."

Under date of March 9th, Phyllis J. Turner, Oils and Fats Administrator, Ottawa, writes in part:

"I realize that the program cannot be a success until we obtain the wholehearted co-operation of retail meat dealers. I may say that the National Salvage Committee sent a

## A. R. P.

Wardens will meet Thursday, March 18, at 7:30 p.m., as follows: Districts 1, 2, 7, at the Fire Hall, for practice with stirrup pumps. Districts 3, 4, 5, 6, at their District Posts, for first aid practice and fitting of gas masks.
